

EDUC 3125 Technology in the Classroom (2)

Students in this hands-on, project-based course learn to use technology creatively and effectively in support of curriculum in PK-12 classrooms. Emphasis is on learning how to use the software and the Internet in the classroom. Focus is not on the tool, but rather on the pedagogy and how to effectively implement the tools in the classroom to instruct and to assess students.

EDUC 3126 Web 2.0 Technologies in the Classroom (1)

This is a hands-on project based course designed to help educators use technology creatively and effectively to support curriculum in PK-12 classrooms. Students will learn the use of the Inspiration family of software and contribute to a course wiki site based on the SOE goals.

EDUC 3127 Interactive Technologies in the Classroom (1)

This is a hands-on project based course designed to help educators use technology creatively and effectively to support curriculum in PK-12 classrooms. Students will learn how to use United Streaming, Tablet PCs, Clickers, and SmartBoards.

EDUC 3128 Multimedia in the Classroom (1)

This is a hands-on project based course designed to help educators use technology creatively and effectively to support curriculum in PK-12 classrooms. Students will learn how to use web cameras, podcasting, PDA's, and iMovie software.
