Finance (MS)*

This program is offered by the Walker School of Business & Technology.

Program Description

The master of science (MS)* in finance is designed to provide a quantitative and comprehensive examination of the finance field. Students will advance through corporate finance, investments, and market instruments and institutions. Additionally, students will experience significant exposure to supporting coursework in the closely related fields of accounting and economics. A capstone experience will tie together the major finance topics, with a significant focus on mergers and acquisitions, and will expose students to literature, and the analysis thereof, pertinent to the field.

After a comprehensive examination of the field, students may choose their electives to satisfy their specific career goals. Students desiring to take advanced certification, such as the CFA (Chartered Financial Analyst) or CFP (Certified Financial Planner), will want to take advanced courses in Derivatives, Financial Statement Analysis, Investments and Portfolio Management, while students interested in pursuing careers in other fields may want to take Entrepreneurial Finance, or similar advanced topics offered by the George Herbert Walker School of Business & Technology.

This program is offered online, at the St. Louis home campus, and at select campuses in the United States and internationally. Please see the Campus Locations section of this catalog for a list of campuses where this program is offered.

*NOTE: The master of science (MS) is abbreviated as MSc in Vienna.

The master of science in finance is accredited by the Accreditation Council for Business Schools and Programs (ACBSP).
