Master of Business Administration (MBA)

This program is offered by the Walker School of Business & Technology. It is available online, at the St. Louis home campus, and at select U.S. and international campuses. Please see the Campus Locations and Offerings section of this catalog for a list of campuses where this program is offered.

Program Description

The master of business administration (MBA) program provides training in business for students interested in understanding the working nature of business in a competitive environment. Courses in the MBA program integrate information and theories from various disciplines, including accounting, economics, finance, marketing, production operations and strategic management. The objective of this program is to develop students into broadly educated business decision makers who understand the nature of business as a whole, with the tools and techniques applicable to a wide variety of business situations.

The capstone for the MBA program gives students the chance to bring together all of the theories, skills and tools studied during the program and integrate them into a learning experience that highlights the nature of competition and the kind of strategic maneuvering that must be done in order to succeed.

The degree requires satisfactory completion of 27 credit hours of the MBA curriculum and 9 credit hours of graduate electives for a total of 36 credit hours. If an area of emphasis is selected, total required hours may be greater. Students who require prerequisite courses may have to complete more credit hours to receive the MBA. Electives for the MBA may be selected from any Walker School of Business graduate offering, or with permission, from one of the other four schools or colleges.

Learning Outcomes

- Students will demonstrate foundation knowledge in each of the primary functional areas of business.
- Students will be able to solve semi-structured business problems.
- Students will be able to solve unstructured business problems.

Prerequisites may be used to meet the emphasis course requirements, depending on program -- students should see an advisor for details.

Areas of emphasis for the MBA degree are:

- Corporate Finance

The MBA is accredited by the Accreditation Council for Business Schools and Programs (ACBSP).

Walker Joint MBA Program

For any undergraduate degree student at Webster University who is considering the master of business administration degree, the Walker Joint MBA enables completion of the MBA in a shorter amount of time.

Those students who have completed an ACBSP accredited undergraduate program at Webster within the past five years may waive six hours of MBA electives, reducing the number of required courses to 30 credit hours. The degree can then be completed in as little as one calendar year.

Those students who have completed a non-ACBSP accredited undergraduate program at Webster within the past five years may also waive six hours of MBA electives. However, these students may be required to take up to nine graduate hours of program prerequisites. Those students wishing to reduce the number of prerequisites may consider taking the following courses as undergraduate electives:

- ACCT 2010 Financial Accounting
- ACCT 2025 Managerial Accounting
- ECON 2000 Survey of Economics

Alternatively, students may elect to take a waiver exam to attempt to bypass some prerequisite hours.
