School Systems, Superintendency and Leadership (EdS)

This program is offered by the School of Education, and is only available online.

Vision
To develop exemplary leaders for tomorrow's world.

Mission
To provide academic rigor, pragmatic experiences and opportunities for individuals to become courageous leaders who are responsive to the diverse needs of the global community.

Goals
1. The educational leader/candidate/graduate will demonstrate and model scholarship and lifelong learning skills.
2. The educational leader/candidate/graduate will demonstrate effective teaching, learning and leadership based on sound theory and practice and ethical decision-making to create an optimal learning environment.
3. The educational leader/candidate/graduate will reflect upon his/her own practice in order to become an agent of change in classrooms, schools and communities.
4. The educational leader/candidate/graduate will demonstrate respect for and participate in a diverse community of global learners including students, teachers, colleagues and families.

Dispositions
The manner in which an individual behaves (his or her dispositions) has a global impact. ELCC Standards stipulate three foundational dispositions that subsume all others. If one acts with integrity, fairness, and ethically then one will be able to promote success of all students in our global community.

Candidates who complete the program are prepared to be educational leaders who have the knowledge and ability to promote the success of all students by acting with integrity, fairly and in an ethical manner.

• 5.1 Acts with Integrity
• 5.2 Acts Fairly
• 5.3 Acts Ethically

Program Description
The education specialist (EdS) provides many opportunities for those who wish to increase their knowledge and skills beyond the master's level. Coursework, action research and internship experiences enable students to develop and demonstrate competencies required to move from a specific focus in teaching, curriculum, or support services in schools to the broader view of the educational leader in the community. The EdS program encourages educators to think outside the box, seek solutions to challenges in schooling, to make the world different and find the courage to do what is best for all students.

Students wishing to combine the EdS program with the certification program must work with their advisor and EdS faculty to meet certification requirements and document performance. Students in the school systems superintendency and leadership major can work toward a superintendent certificate. After successful completion of state-required assessment activities, students can apply for administrative certification.

General Requirements
The EdS requires satisfactory completion of 34 credit hours of curriculum. Students seeking administrative certifications must also hold valid teacher certification for the appropriate grade level or specialty area. Students seeking an out-of-state certificate must contact their State's department of elementary and secondary education for information on requirements for administrative certificates. Some states require students to complete the entire program at one university before issuing certification. Some states also require that you must complete the entire EdS program before certification will be granted. Please check with your state's Department of Elementary and Secondary Education for certification requirements.

The student should consult the Academic Policies section of the catalog for Webster University policies regarding course attendance; conduct; grades; academic warning, probation and dismissal; transcripts; and diploma. Procedures for registration and drop, add and withdrawal from a course are outlined in the Enrollment section of this catalog.

EdS students are required to demonstrate graduate level writing skills. Students who are unable to do so will be required to seek assistance for every writing assignment at Webster University's Writing Center.

The EdS program consists of a prescribed curriculum that includes coursework, internships and a capstone course. This course includes a formal review of the student's portfolio of documented competencies or other faculty-approved methods of documenting established competencies.
