

Combined Degrees

Program Description

The combined degrees program enables the student with an outstanding academic record to complete both a bachelor's degree and a master's degree through an accelerated program. Upper-level undergraduate courses are integrated with initial graduate courses in the curriculum, which decreases the total requirements for both degrees by a maximum of 12 credit hours.

Students who have accumulated between 64 and 98 credit hours and who have maintained a 3.3 GPA in previous college work are eligible to apply for admission to the program.

The combined degrees program is offered at the St. Louis area locations and has limited availability at Webster's European campuses.

Acceptance and Advancement to Candidacy

The letter of acceptance to the combined degrees program serves as the letter of acceptance required for the master's degree program. Degree-seeking students are advanced to master's candidacy when they have completed 12 credit hours of graduate coursework with grades of B or above.

Academic Performance

The degree-seeking student must maintain an A or B grade average to remain in the combined degrees program. Students must maintain a current GPA of at least 3.0.

An undergraduate student who receives two grades of C, one grade of D or one grade of F in the required combined degree transition courses will be dismissed from the combined degrees program. A graduate student who receives one grade of C or one grade of F will be dismissed from the combined degrees program.

Students dismissed from this accelerated program are eligible to pursue the traditional graduate degree program at Webster University, subject to the policies stated in the current Graduate Studies Catalog.

Continuous Enrollment

Students in the accelerated degrees program must maintain continuous and consecutive enrollment at Webster University. Students who miss more than two consecutive eight-week or nine-week terms will be withdrawn from the program. For exceptional reasons, students may request a waiver of this requirement from the appropriate dean.

Because of the special accelerated nature of this program, no coursework will be permitted to be transferred into the graduate component of the program. Transfer courses may be used only to meet undergraduate requisite course requirements, and then only if taken before acceptance into the program.

General Requirements

Students in the undergraduate component of the combined degrees program are subject to the policies and procedures outlined in the current Undergraduate Studies Catalog, with the addition or exception of acceptance/advancement to candidacy, academic performance, and continuous enrollment requirements detailed in this section.

Students in the graduate component of the combined degrees program are subject to the policies and procedures outlined in the current Graduate Studies Catalog, with the addition or exception of the acceptance/advancement to candidacy, academic performance, and continuous enrollment requirements detailed in this section.

Learning Outcomes for each combined degree follow the outcomes outlined for the corresponding graduate degree in the Graduate Studies Catalog.
