SITE: WEBH 219	INSTRUCTOR CONTACT INFORMATION: Dr. Dianne Koehnecke koehneck@webster.edu (314) 961-2660 x7945	CREDIT HOURS: 3

1. COURSE DESCRIPTION:

This course is designed for teachers of pre-school and elementary students. The purpose of the course is to help teachers become familiar with the contemporary books in poetry, children’s fiction, and nonfiction. Poetry since the seventies will be read, discussed, and evaluated. Speakers, videos, and response experiences (renderings, book sharings, poetry writing, and reader response) will highlight the poetry portion. Media related to poetry presentation will be considered and evaluated. In children’s fiction/nonfiction, some classics will be discussed and compared to later publications.

6. GRADING SCALE :

Requirements:

- To attend and be on time for every class.
- To leave word in the MAT office (or email) if an emergency occurs.
- To attend all classes for an 'A' grade.
- To participate in class sessions and successfully complete assignments

Grades reflect the following standards:

A = superior graduate work.

B = satisfactory graduate work.

C = work that is barely adequate at graduate level performance.

Curve:

100-92= A

90-80= B

79-70= C

Advanced	Superior professional development, distinctive competence (X)
Proficient	Accomplished skill development, evidence of competence (P)
Satisfactory	Basic skill development; evidence of potential (E)
Unsatisfactory	Insufficient evidence; unacceptable performance (I)

Note: ALL PAPERS/PROJECTS MAY BE RETURNED VIA A SELF-ADDRESSED, STAMPED ENVELOPE. PAPERS ARE NOT AVAILABLE FOR PICK-UP IN THE SOE OFFICE. TURN OFF ALL CELL PHONES DURING CLASS. USE A PAPER POCKET FOLDER TO TURN IN ALL ASSIGNMENTS.

7. ACADEMIC HONESTY POLICY:

Students at Webster University are expected to practice academic honesty.

Avoiding Plagiarism

Plagiarism is intentionally claiming that another person's work is his/her own or implying that another person's work is his/her own (through inadequate or inaccurate citations of reference material.)

Students:

- Should not copy whole portions of text from another source as a major component of papers or projects.
- Should identify the title, author, page number/webpage address, and publication date of works when directly quoting small portions of texts, articles, interviews, or websites.
- Should appropriately identify the source of information when paraphrasing (restating) ideas from texts, interviews, articles, or websites.
- Should follow the guidelines of the American Psychological Association Style Guide when referencing all research sources.

Consequences of Academic Dishonesty:

Academic dishonesty may result in dismissal from class and/or the program.

For further information about the consequences of academic dishonesty please consult the Webster University Student Handbook.

8. ACCESSIBILITY/ACCOMODATIONS POLICY:

If you have a disability that may have some impact on your work in this class and for which you may require accommodations contact the Director of the Academic Resource Center, Dr. Pat McLeese, at (314) 968-7495.

SCORING GUIDES FOR COMM 5000

WEBSTER UNIVERSITY

SCHOOL OF EDUCATION

Vision: “. . . We all must work to make this world worthy of its children.” (Casals, 1970)

Mission: The School of Education at Webster University provides its students with the knowledge, experiences, and practical tools that help them guide both themselves and others toward lifelong learning. The School of Education is a community of educator-scholars who apply critical reflections and creative energies to enhance learning in schools and other educational settings. The faculty strives to support this community by modeling effective teaching practices based on sound theory and research. Personalized approaches create a challenging, yet supportive environment that permits the risk-taking necessary for learning and growth. The School of Education encourages its faculty and students to work actively toward this end, keeping in mind that action must be rooted in visionary, yet realistic, thinking. This thought and action process underscores the development of an inner-directed self-understanding, an outer-directed global perspective, and an appreciation of human diversity that arises from both.

Theme: Developing a world of learners through knowledge, leadership, and life-long learning.

The mandala is a universal design that represents meaning. It appears in children’s early drawings in many cultures and seems a fitting symbol to represent the conceptual schema of the School of Education. The outer circle is the “world of learners” in cultural settings. Each quadrant represents one of the school’s four goals for its candidates: to develop knowledgeable learners, informed instructors, reflective collaborators, and responsive educators. The two axes represent the theme components of knowledge, leadership, and life-long learning. These lines are broken to emphasize the fluid relationship of the goals and integrated concepts.

Goals

1. Education candidates will demonstrate knowledge of the subject matter, knowledge of the learner, and knowledge of pedagogy based on inquiry and scholarship.

The knowledgeable learner:

- 1.1 knows content that supports conceptual understanding;
- 1.2 applies tools of inquiry to construct meaningful learning experiences;
- 1.3 identifies developmental factors in student learning; and
- 1.4 understands theoretical principles of effective instruction to plan learning experiences.

2. Education candidates will incorporate multiple assessment and instructional strategies to support effective educational practices based on research and theory.

The informed instructor:

- 2.1 designs curriculum based on students' prior knowledge, learning styles, strengths, and needs;
- 2.2 understands and uses a range of instructional strategies;
- 2.3 uses a variety of communication modes, media, and technology to support student learning; and
- 2.4 employs a variety of formal and informal assessments to monitor learning and modify instruction.

3. Education candidates will reflect on the roles educators take as leaders of change through collaboration with colleagues, students, and families in schools and communities.

The reflective collaborator:

- 3.1 values and integrates reflection to grow as a professional;
- 3.2 promotes communication and collaboration with colleagues, families, and community leaders;
- 3.3 seeks relationships with families and students to support student learning; and
- 3.4 initiates change that benefits students and their families.

4. Education candidates will demonstrate respect for diversity through responsive teaching and learning that values individual differences.

The responsive educator:

- 4.1 understands and responds appropriately to issues of diversity
- 4.2 acknowledges social and cultural contexts to create effective teaching and learning environments;
- 4.3 adapts instruction to the learner's knowledge, ability, and background experience; and
- 4.4 identifies resources for specialized services when needed.

Dispositions:

There are various definitions of dispositions. The dictionary suggests that dispositions are the combination of traits revealed by one's habitual ways of behaving or thinking. NCATE defines dispositions as "the values, commitments and professional ethics that influence behaviors toward students, families, colleagues, and communities and affect student learning, motivation, and development as well as the educator's own professional growth. " (Professional Standards, p. 53) Interpreting and assessing dispositions is often more intuitive than it is descriptive and measurable. Regardless of the difficulty of assessment, there is significant value in focusing attention on qualities that make an effective teacher.

1. Understands and Respects Self
 - 1.1 Understands and respects that s (he) may be different from others
 - 1.2 Embraces an openness to change (adaptability, flexibility)
 - 1.3 Exhibits curiosity
 - 1.4 Engages in reflection
2. Understands and Respects Others

2.1 Understands, respects, and responds appropriately to diversity in a variety of settings

2.2 Exhibits empathy

2.3 Commits to fairness and honesty

Listens respectfully to other points of view

3. Understands and Respects Professional Communities

3.1 Commits to professional behavior in university and school cultures

3.2 Practices informed decision-making in university and school cultures

3.3 Communicates and collaborates in university and school cultures

3.4 Accepts academic rigor (willingness to work/ high expectations)

3.5 Affects change with courage and confidence

<p>Standard 10. The pre-service teacher fosters relationships with school colleagues, parents, and educational partners in the larger community to support learning and well-being.</p>	<p>10.1 participates in collegial activities designed to make the entire school a productive learning environment</p> <p>10.2 talks with and listens to students, is sensitive and responsive to signs of distress, and seeks appropriate help as needed to solve students' problems</p> <p>10.3 seeks opportunities to develop relationships with the parents and guardians of students, and seeks to develop cooperative partnerships in support of student learning and well-being</p> <p>10.4 identifies and uses the appropriate school personnel and community resources to help students reach their full potential</p>

MoSTEP Standards	Performance Indicators
<p>Standard 11. The pre-service teacher understands the theory and application of technology in educational settings and has technological skills to create meaningful learning opportunities for all students.</p>	<p>11.1 demonstrates continual growth in the uses and troubleshooting of current and emerging computer technologies to run software; to access, generate, and manipulate data; and to publish results.</p> <p>11.2 applies current research on teaching and learning with technology to plan and deliver developmentally appropriate learning opportunities that integrate a variety of software, applications, and learning tools (e.g., graphing calculators, languages translators, scientific probe-ware, musical composition software, electronic maps, etc.) to support the diverse needs of learners.</p> <p>11.3 identifies, locates, explores, and evaluates for accuracy and suitability, computer/technology resources including applications, tools, educational software, and associated documentations. Designs and utilizes technology-enhanced, learner-centered classroom strategies and activities (including teaming and/or small group collaboration) to address the diverse needs of students. Facilitates technology-enhanced learning experiences that develop students' higher-order thinking skills, creativity, and problem-solving skills; content standards; and student technology standards.</p> <p>11.4 uses technology resources in assessing student learning of subject matter using a variety of assessment techniques to collect and analyze data, to interpret results, and to communicate findings to improve instructional practice and maximize student learning (including the use of technology resources for learning, communication, and productivity).</p> <p>11.5 uses technology resources to engage in ongoing professional development and lifelong learning. Continually evaluates and reflects on professional practice to make informed decisions regarding the use of technology in support of student learning. Uses technology to communicate and collaborate with peers, parents, and the larger community in order to nurture student learning and to conduct research and to solve problems.</p> <p>11.6 models and teaches legal and ethical practice related to technology, information, and software resources, as well as the safe and healthy use of technology resources. Applies technology resources to enable and empower learners with diverse backgrounds, characteristics, and abilities, including facilitating equitable access to technology resources for all students.</p>

Standards for the English Language Arts **Sponsored by NCTE and IRA**

Standards for the English Language Arts The vision guiding these standards is that all students must have the opportunities and resources to develop the language skills they need to pursue life's goals and to participate fully as informed, productive members of society. These standards assume that literacy growth begins before children enter school as they experience and experiment with literacy activities—reading and writing, and associating spoken words with their graphic representations. Recognizing this fact, these standards encourage the development of curriculum and instruction that make productive use of the emerging literacy abilities that children bring to school. Furthermore, the standards provide ample room for the innovation and creativity essential to teaching and learning. They are not prescriptions for particular curriculum or instruction. Although we present these standards as a list, we want to emphasize that they are not distinct and separable; they are, in fact, interrelated and should be considered as a whole.

1. Students read a wide range of print and non-print texts to build an understanding of texts, of themselves, and of the cultures of the United States and the world; to acquire new information; to respond to the needs and demands of society and the workplace; and for personal fulfillment. Among these texts are fiction and nonfiction, classic and contemporary works.
2. Students read a wide range of literature from many periods in many genres to build an understanding of the many dimensions (e.g., philosophical, ethical, aesthetic) of human experience.
3. Students apply a wide range of strategies to comprehend, interpret, evaluate, and appreciate texts. They draw on their prior experience, their interactions with other readers and writers, their knowledge of word meaning and of other texts, their word identification strategies, and their understanding of textual features (e.g., sound-letter correspondence, sentence structure, context, graphics).
4. Students adjust their use of spoken, written, and visual language (e.g., conventions, style, vocabulary) to communicate effectively with a variety of audiences and for different purposes.
5. Students employ a wide range of strategies as they write and use different writing process elements appropriately to communicate with different audiences for a variety of purposes.
6. Students apply knowledge of language structure, language conventions (e.g., spelling and punctuation), media techniques, figurative language, and genre to create, critique, and discuss print and non-print texts.
7. Students conduct research on issues and interests by generating ideas and questions, and by posing problems. They gather, evaluate, and synthesize data from a variety of sources (e.g., print and non-print texts, artifacts, people) to communicate their discoveries in ways that suit their purpose and audience.
8. Students use a variety of technological and information resources (e.g., libraries, databases, computer networks, video) to gather and synthesize information and to create and communicate knowledge.
9. Students develop an understanding of and respect for diversity in language use, patterns, and dialects across cultures, ethnic groups, geographic regions, and social roles.

10. Students whose first language is not English make use of their first language to develop competency in the English language arts and to develop understanding of content across the curriculum.

11. Students participate as knowledgeable, reflective, creative, and critical members of a variety of literacy communities.

12. Students use spoken, written, and visual language to accomplish their own purposes (e.g., for learning, enjoyment, persuasion, and the exchange of information).
