The major difference between the two projects is that activities in the the unit will be linked by a common theme and the lesson plans in the packet can stand alone.

Regardless of which project you choose the following criteria apply:

ONLINE PARTICIPATION EXPECTATION

You are expected to participate in this course in a consistent and timely fashion. You will notice that each week you are expected to have participated in a discussion based on a week's assigned readings and learning activities.

This means that during each week you are expected to participate in each discussion **a minimum of four times**. These four postings should include at least one posting (which you yourself initiate) and at least three postings in which you respond to other students' questions or observations.

These postings should be spread out throughout the week. This means that the required four postings should be **at least 12 hours apart**. Of course, if you wish to respond immediately to a comment or question from another student, you are certainly encouraged to do so, but these postings would be in addition to the four required postings.
