Hello, My name is Representative Melissa Leach, and my Legislative Office, at the Missouri State Capitol Building, in Jefferson City, Missouri, will be participating in the Missouri House of Representatives Intern Program this coming 2013 Legislative Session. Students interested in the internship program will gain experiences associated with state government and will provide resources for my office in handling such tasks as research, constituent concerns, attending Committee Hearings, and general office duties.

For the past two years I served the constituents of District 137, and am up for re-election in the 132nd District, which represents the northwestern part of Springfield, Missouri. During the past Legislative Sessions, I have served on the following House of Representative Committees: Utilities; Special Standing Committee on Renewable Energy; Children and Families; Corrections; Appropriations – Education; and the Interim Committee on Strengthening Missouri Families.

The internship would begin in January and end in May during the 2013 Legislative Session. If possible, we would prefer to have a student who would be willing to work session hours. Should any of your students be interested in working with my office this coming Legislative Session, please have them contact my office at 573-751-3795 or they can email me their resume to melissa.leach@house.mo.gov.

Thank you,

Melissa Leach
State Representative, District 137
