Pursuant to the "Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act" previously known as the Federal Student Right to Know and Campus Security Act of 1990.

GENERAL STATEMENT

Webster University is committed to providing a safe and secure environment by consistently seeking and finding ways to promote, preserve, and deliver a feeling of security, safety, and quality of service to the campus, its employees, and students and to the community to which it serves.

Regardless of our efforts to provide a safe campus, there is no guarantee that a person will not become the victim of a crime while on campus; the possibility does exist and is always present. Crime prevention on campus is not just the responsibility of the Webster University at Greenville Metropolitan Campus; it is a shared responsibility between the individual and the University. Students, faculty, and staff must accept responsibility for helping to maintain a safe environment.

Webster University encourages all individuals who attend, work or visit the campus to follow basic personal and property crime prevention procedures for yourself and for those around you. Please become familiar with the various services and procedures that are outlined in this brochure and are offered by Webster University and the surrounding communities.

REPORTING CRIME OR SUSPICIOUS ACTIVITY REPORTING

The University endorses a reporting policy that strongly encourages victims to report all crimes and suspicious activity that occur within the jurisdiction of this community to City of Greenville Police Department 1-864-271-5333; regardless of their nature. The prompt reporting of suspicious activity or persons can prevent crimes. Crimes occurring off campus should be reported to the law enforcement agency having proper jurisdiction. If you are a victim of a crime off campus and are unsure of the proper police department to contact; call City of Greenville Police Department for assistance.

Members of the University are encouraged to report any suspicious activity to the Greenville Police Department immediately. The prompt reporting of suspicious activity or persons can prevent crimes. If someone's actions are out of character and you become suspicious, call to assess the situation. In addition, members of the community should report the criminal offenses for the purpose of making timely warning reports and to be included in the crime statistics

Webster University Greenville Metropolitan Campus has access to local police agencies on an immediate basis to report crime and/or ask for assistance.

In addition to use of the telephone system, the University community can also contact the City of Greenville Police Department person or in writing. Regardless of how reported, the department will investigate all reported incidents.

CONFIDENTIAL REPORTING

If you are a victim of a crime, and do not want to pursue action within the university system or the criminal justice system, you may still want to consider reporting the incident(s) in a confidential report. The City of Greenville Police Department can take a report without revealing your identity. The purpose of a confidential report is to comply with your wish to keep the matter confidential, while taking steps to ensure the future safety of yourself and others. Confidential reports are counted and disclosed in the annual crime statistics report.

With such information, the University can keep an accurate record of the number of incidents involving students, employees and visitors; determine where there is a pattern of crime with regard to a particular location, method, or assailant; and alert the campus community to potential danger.

PASTORAL COUNSELORS and PROFESSIONAL COUNSELORS

Campus "Pastoral Counselors" and Campus "Professional Counselors" when acting as such, are not required to report crimes for inclusion into the annual disclosure of crime statistics.

OFF CAMPUS CRIMINAL ACTIVITY/OFF CAMPUS STUDENT ORGANIZATIONS

Webster University does not have any off campus student organizations in the form of fraternities or sororities, on off campus buildings or structures, and therefore does not monitor criminal activity in these areas.

TIMELY REPORTING

In order to keep the campus community informed about safety and security issues, and to keep the university community informed on incidents that pose a serious and/or continuing threat, timely warnings will be issued by the Director Frank LaTorre to the campus community. Timely warnings will be issued on reported crimes or incidents that include, but may not be limited to: criminal homicide, sex offenses-forcible and non-forcible robbery, aggravated assault, motor-vehicle theft, arson, and criminal homicide. Cases of aggravated assault and sex offenses are considered on a case-by-case basis, depending on the facts of the case and the information known. For example, if an assault occurs between two students who have a disagreement, there may be no on-going threat to other WU community members and a timely warning notice would not be distributed. In cases of Sexual Assault, they are

considered on a case by case basis depending on the facts of the case, when and where the incident occurred, when it was reported, and the amount information known.

These incidents should they occur and in the judgment of Director Frank LaTorre constitutes an ongoing serious or continuing threat a campus wide timely warning will be issued. The information for a timely warning will be compiled, written and published to the public by the Director Cooper.

Timely warnings will occur on an ongoing basis using bulletin boards, and/or e-mail, and/or telephone and/or the emergency text messaging system (Alerts). All information will be composed, published and issued by Mr. Frank LaTorre.

Timely warnings will be posted to bulletin boards and/or by use of the website at www.webster.edu/greenville by Mr. Frank LaTorre. If the threat has been mitigated and no longer poses a danger to the campus community, then no timely warning will be posted.

If in the judgment of the Director and in consultation with the Greenville Police Department or other involved law enforcement agencies determine that by issuing a timely warning it will compromise the efforts to assist victims or to contain, respond to, or otherwise mitigate the emergency, no warning will be given.

EMERGENCY RESPONSE

The institution has general evacuation guidelines, in the event that a segment of the campus needs to be evacuated. The plan would be affected by a myriad of factors, including the type of threat, the occupancy of the other buildings and areas of the campus at the time of the incident, etc. Therefore, specific information about a multi-building or area evacuation cannot be shared with the campus community in advance. Webster University expects members of the community to follow the instructions of first responders on the scene, as this type of evacuation would be coordinated on-site. In some emergencies, you may be instructed to “shelter-in-place”. If an incident occurs and the buildings or areas around you become unstable, or if the air outdoors becomes dangerous due to toxic or irritating substances, it is usually safer to stay indoors, because leaving the area may expose you to that danger. Thus, to “shelter-in-place” means to make a shelter of the building that you are in, and with a few adjustments this location can be made even safer and more comfortable until it is safe to go outside. This means that if an incident occurs and the building you are in is not damaged; stay inside in an interior room until you are told it is safe to come out. If your building is damaged, take your personal belongings (purse, wallet, access cards, etc.) and follow the evacuation procedures for your building (close your door, proceed to the nearest exit, and use the stairs instead of the elevators). Once you have evacuated, seek shelter at the nearest University building quickly. If police, public safety or fire department personnel are on the scene, follow their directions.

EMERGENCY NOTIFICATIONS

In the event of a serious incident which poses an immediate threat to members of the Webster University community, the University has systems in place for communicating information quickly to those individuals. Some or all of these methods of communication may be activated in the event of an immediate threat to the campus community. These methods of communication include network emails, emergency text messaging system (WEBSTER ALERTS) and the telephone system.

Webster University will post updates during a critical incident on the Webster University website at <http://www.webster.edu/greenville> Members of the larger community who are interested in receiving information about emergencies on campus can sign up for the emergency text message system and can access the Webster University website to obtain information and updates in the event of an emergency on campus.

All members of the Webster University Community are notified on an annual basis that they are encouraged to notify the Greenville Police Dept. of any situation or incident on campus that involves a significant emergency or dangerous situation that may involve an immediate or on-going threat to the health and safety of students and/or employees on campus. The Greenville Police Department has the responsibility of responding to, and summoning

the necessary resources, to mitigate, investigate, and document any situation that may cause a significant emergency or dangerous situation. In addition, they have a responsibility to respond to such incidents to determine if the situation does in fact; pose a threat to the community. If that is the case, Federal Law requires that the institution immediately notify the campus community or the appropriate segments of the community that may be affected by the situation.

The Greenville Police Department is primarily responsible for confirming that there is a significant emergency or dangerous situation on campus that could cause an immediate threat to the health and safety of the members of the campus community. However, there are other departments on campus that could be in a position to confirm certain types of emergencies, such as a pandemic flu outbreak, chemical spill in a lab, etc.

If the Greenville Police Department confirms that there is an emergency or dangerous situation that poses an immediate threat to the health or safety of some or all members of the Webster University community, Director Frank LaTorre will determine the content of the message and will use some or all of the systems described above to communicate the threat to the Webster Community or to the appropriate segment of the community, if the threat is limited to a particular building or segment of the population. The Director will, without delay and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the judgment of the first responders compromise the efforts to assist a victim(s) or to contain, respond to, or otherwise mitigate the emergency.

WEBSTER ALERTS (EMERGENCY TEXT MESSAGING SYSTEM)

Webster Alerts is a campus alerts service that keeps you up-to-date on the latest campus information. Webster University has partnered with e2Campus to offer this service FREE to students, faculty, and staff. Using this service, Webster sends out text messages and/or emails containing emergency announcements and weather-related school closing information when necessary. Although optional, you are strongly encouraged to sign up for Webster Alerts. Reminders and instructions for setting up an account with Webster Alerts are sent out by the Informational Technology department 3-4 times a year.

Members of the larger community who are interested in receiving information about emergencies on campus can also sign up for the emergency text message system and can access the Webster University website to obtain information and updates in the event of an emergency on campus.

DAILY CRIME LOG

The university community is kept aware of reported incidents on campus and in the nearby community through the daily crime log located at 124 Verdae Drive, Ste. 400. The crime log is open to public inspection for the most recent 60-day period during normal business hours, Monday through Friday, except holidays and closure of school. Any portion of the log beyond 60 days, if not immediately available will be made accessible within two business days of a request for inspection being made.

Webster University Greenville Metropolitan campus supports pro-active Crime Prevention to make our campus and living areas a safer place to learn, live and work. Additional tools we use are:

- a. Telephones throughout the buildings
- b. Burglar Alarms in key areas.

The University's crime prevention program is based upon the dual concept of minimizing criminal opportunities whenever possible and encouraging students and employees to take an active role in their own personal security and the security of others. The central theme of the campus crime prevention program is "AWARENESS AND SELF-PROTECTION. The self-protection philosophy includes the full utilization of campus public safety to encourage and enable this self-protection concept.

The Department of Public Safety on the main campus in St. Louis, Missouri in partnership with City of Greenville Police Department and with other community groups and organizations (e.g. Women's resource Center, Multicultural Affairs, Student Government Association, etc) is available to provide, distribute and participate in discussion groups to address topics such as crime/fire prevention, general or specific safety issues, drug and weapons free environment compliance, and general property or personal security concerns. They will also utilize a number of strategies and activities specifically designated to educate the community regarding sexual assault issues and to promote awareness of rape, acquaintance rape, and other sex offense prevention strategies. The strategies and activities referenced above may include the use of posters, flyers, brochures, videos, lectures and awareness days/weeks.

SAFETY AND ACCESSIBILITY COMMITTEE

SEXUAL OFFENSE POLICY

Webster University is committed to providing faculty, staff and students with an environment free from implicit and explicit coercive sexual behavior used to control, influence or affect the well-being of any member of its community. This policy provides the campus community with the appropriate process for redressing individual grievances related to sexual harassment and other sexual offenses that occur. Webster University makes every effort to educate the community to prevent such events from occurring and provides support to those affected when it does occur.

Webster University has identified an individual as an Advocate for those who have experienced a sexual offense. The Advocate provides assistance to any member of the campus community who is interested in seeking medical attention, emotional/psychological support, and/or filing campus criminal, and/or civil charges against the alleged

assailant. The University also provides other resources to assist in this process and to facilitate the prevention of additional acts of sexual offense.

Upon request, all victims of any sexual offense; students and staff alike, will be provided options by counseling staff relative to changing academic or living situations after an alleged sexual assault incident, if reasonably available.

Further information on Webster University's Sexual Offense Policy can be found on pp. 37-40 2011-2011 Student Handbook.

Sexual Harassment

Harassment on the basis of sex is a violation of Section 703 of Title VII of the Civil Rights Act of 1964 and is also prohibited under Title IX of the Educational Amendments of 1972. Sexual Harassment can take many forms and includes, but is not limited to:

- Request for sexual favors
- Touching, rubbing, or brushing another's body
- Physical assault of a sexual nature
- Sexually offensive remarks
- Friendly hug, patting, touching
- Use of risqué jokes, stories, images
- inappropriate body images used to promote advertised events

and submission to such conduct is made either explicitly or implicitly as a term or condition of an individual's employment or education; or submission or rejection of such conduct is used as a basis for employment or academic decisions affecting the individual; or such conduct has the purpose or effect of unreasonably interfering with an individual's work or academic performance or creates an intimidating or hostile or educational environment.

Any form of Sexual Harassment is grounds for University disciplinary action and are considered serious violations at Webster University. A specific set of procedures designed to deal with sexual harassment are listed in the Student Life handbook beginning on page 37.

Gladys Smith; Campus Advocate, is designated by the University as the support and resource person for all students, faculty, and staff who believe they have experienced sexual harassment or a sexual offense. SEXUAL ASSAULT & RAPE

PROCEDURES TO FOLLOW IN THE EVENT OF SEXUAL ASSAULT

In the event a student, employee or visitor is sexually assaulted on University property or at a University sponsored or supervised activity, the victim should take the following actions:

- A. Go to a safe place
- B. Call the City of Greenville Police Department at 864-271-5333
- C. Other campus resources include: the Advocate in Counseling and Life Development on the main campus at 1-314-968-7030 or Mr. Frank LaTorre 864-676-9002 if the incident occurred on University grounds. If it occurred off campus contact the local police department for that area.
- D. Contact a friend or family member.
- E. Do not shower, bathe or douche.
- F. Do not urinate, if possible.
- G. Do not eat, drink liquids, smoke or brush teeth if oral contact took place.
- H. Keep the clothes worn during the offense. If clothes are changed, place the clothes in a paper bag.
- I. Get prompt medical attention.

- J. Do not disturb or destroy any physical evidence left at the scene of the crime.
- K. Write down all details remembered as soon as possible.

Generally, It is important to seek immediate and follow-up medical attention for several reasons: first, to assess and treat any physical injuries you may have sustained; second, to determine the risk of sexually transmitted diseases or pregnancy and take preventive measures; and third, to gather evidence that could aid criminal prosecution. It is important to preserve physical evidence and it should be collected immediately, ideally within the first 24 hours. It may be collected later than this, but the quality and quantity of the evidence may be diminished.

Please keep in mind, that if you are victim of a rape and/or any type of sexual assault, you do have the right not to report the incident. Webster University does encourage all students, employees and visitors to report any rape, acquaintance rape or any other sexual offense that a person may be a victim to as soon as possible.

If you decide to report the incident, contact the Greenville Police Department. The victim has the option to notify the Greenville Police Department or the appropriate local law enforcement agency, depending on the location where the offense occurred. The Advocate in Counseling and Life Development on the main campus in Webster Groves MO 314-968-7030 will assist the victim in notifying these authorities, if the victim requests the assistance.

If you are not sure whether to report the incident or not, contact health services, the Advocate in the Counseling and Life Development office or a campus advisor/counselor at 314-968-7030, neither of whom is required to report alleged incidents.

If you decide to take part in the University adjudication process, you should contact Student Affairs. Charges may either be filed directly by you or by the University on the basis of your written statement. Such a charge would be handled in accordance with the procedures relating to violations of the University's *Code of Student Conduct* regulations. Individuals could be subject to disciplinary action pending review by the University. Those students found responsible for violating the *Code* in this way could be suspended or expelled.

In the case of on-campus disciplinary action regarding an alleged sexual assault, the accuser and the accused are entitled to the same opportunities to have an advisor or others present during a campus disciplinary proceeding, and both the accuser and the accused should be informed of the outcome of any campus disciplinary proceedings brought alleging a sexual assault. (For further student disciplinary procedures, see the Student Handbook).

Students who allege sexual assault by another student may request a change in their academic situations on campus after the alleged incident takes place if such changes are reasonably available.

SEX OFFENDER REGISTRY

The federal Campus Sex Crimes Prevention Act, enacted on October 28, 2000 went into effect October 28, 2002. The law requires institutions of higher education to issue a statement advising the campus community where law enforcement agency information provided by a State concerning registered sex offenders may be obtained. It also requires sex offenders already required to register in a State to provide notice, as required under State law, of each

institution of higher education in that State at which the person is employed, carries on a vocation, or is a student. People wishing to access this information can obtain it by contacting the City of Greenville Police Department or by going to the City of Greenville website www.greenvillepd.com.

DATE RAPE

Date rape drugs can be placed in any drink, not just alcohol. Effects may range from a feeling of well-being and short term memory loss to an apparent aphrodisiac and intoxication effect. Serious adverse effects can occur such as seizures, insomnia, anxiety, nausea, dizziness, hallucinations, and coma, even death. Some common side effects of these drugs include a drunken appearance, drowsiness, light-headedness, staggering, confusion, muscle relaxation, and amnesia that can last up to 24 hours.

If one suspects that they or someone they know has been drugged and/or assaulted, first, go to a safe place, call City of Greenville Police Department or the nearest hospital's emergency room for immediate treatment.

DATING VIOLENCE

Webster University is committed to providing on-campus security, education, training and victim services to combat violence against all persons. Dating Violence is defined as violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim, and where the existence of such a relationship shall be based on a consideration of the length of the relationship, the type of relationship, and frequency of interaction between the person involved in the relationship.

The campus offers support and counseling for individuals who have experienced dating violence to include emotional support and education in making healthy choices.

A student victim of dating violence has the right, in addition to filing charges through the criminal justice system, to file a complaint with the university's Campus Advocate.

Upon request, all victims of any sexual offense, students and staff alike will be provided options by counseling staff relative to changing academic or living situations after an alleged sexual assault incident, if reasonably available.

MISSING STUDENT

If a member of the University community has reason to believe that a student is missing, whether or not the student resides on campus, all possible efforts are made to locate the student to determine his/her state of health and well-being through the collaboration of the City of Greenville Police Department.

Webster University officials shall make every attempt to locate the whereabouts of the individual through contact with friends, associates, etc.

If located, the student's health and well-being will be of the utmost priority. If appropriate, referral will be made to Student Affairs.

If not located, notification of the family within 24 hours of receiving the report is made to determine if they know of the whereabouts of the student.

DISCIPLINARY PROCEEDINGS

Because Webster University is an educational institution, judicial procedures and disciplinary response to student behavior are designed as much for guidance and correction of behavior as for invoking fair and appropriate sanction. Though every effort is made to address the seriousness of the offense and the record of conduct, of a given student, specific responses are not rigidly predetermined. The University recognizes that inappropriate behavior may be a result of the student's inability to solve a problem or manage a situation appropriately. Ultimately, the student must

accept responsibility for his/her behavior and the consequences that result. The University, however, also recognizes that judicial responses may include providing students with educational alternatives that assist the student in learning how to handle certain situations. The fundamental hope is that the student can learn and grow from the incident and sanctions imposed in response to that behavior, and that he or she can make necessary changes in his/her behavior to become a constructive member of the educational community.

The rights of a student and the specific procedures for reporting, and actions taken can be obtained in the student life policies and procedures guidebook provided by the Dean of Student Affairs.

SANCTIONS

In determining sanctions, administrators and the University Judicial Board will consider the nature and seriousness of the offense. Sanctions are determined by the administrator or the hearing Board and implemented by the appropriate administrator. Sanctions include but are not limited to: written reprimand, mandatory educational and/or counseling programs, restriction of campus access, disciplinary probation, suspension, or termination (in the case of employees), or expulsion (in the case of students).
