Activities	<ul style="list-style-type: none">• Students will choose an applied research project that incorporates the integrated studies of the core courses taken. Project to be approved by instructor before commencing the research.• In addition to the applied research method, students will include a section on decision making facilitators and reciprocal impact factors. In that section the students will identify (a)at what step of the decision process would their project be incorporated, (b)what facilitators did the student (researcher) bring to bear on the project and the impact on results and (c) what reciprocal impact factors should the student (researcher) consider in the project for successful acceptance and implementation• Before proceeding with actual research, instructor must approve the following: Situation analysis and the problem to be resolved, the premise, the research method to be used, core courses to be assessed (include an example), the research instrument and literature sources.• Most project papers will be about 25 to 35 pages of original work.
