Section 1

Introduction

The responsibility to periodically assess the General Education Program at Webster University is the general responsibility of the Curriculum Committee. The current assessment process began during the 2008 –2009 academic year. The basic process involves the Curriculum Committee first discussing and approving a General Education Assessment Proposal developed by the Coordinator of General Education.

Next, the Committee selects a General Education Assessment Task Force from its membership. Included as a member of this Task Force is the Webster University Coordinator for General Education (the Coordinator for General Education is a Ex Officio member of the Curriculum Committee). This Task Force is made up of five members. The Coordinator of General Education Chairs the General Education Assessment Task Force. The Task force works with Webster University administration, faculty , students and staff in the implementation of the assessment proposal.

The General Education Assessment Task Force began its work for the current General Education Assessment in the Fall of 2008. The first step was a delineation of duties. The approved General Education Proposal and Deliniation of Duties is found in Section 2.

This Final Document, therefore, represents the work of both the Curriculum Committee and The General Education Task Force with input from a wide variety of Webster University administrators, faculty, students and staff..

The 2009-2010 Final Document is divided into ten (10) main sections and includes this General Introduction, a statement relating General Education and the Mission of the University and an Appendix. Each Task Force member and the chair were assigned responsibilities that related to implementing the assessment process (See Section 2 for the approved assessment process) as developed by the Task Force and approved by the Curriculum Committee in Spring of 2009. The Delineation of Duties (Section 2) explains the Task Force membership responsibilities and an explanation of the basic content each of the sections of this document.

The following goals are the specific goals of this General Education assessment that relate to student and course assessment (developed from the general goals found in the proposal).

To utilize two standards of measurement (Webster's Gen. Ed. Student Assessment and the NESSE nationally recognized mode of student assessment) in the student assessment of General Education at Webster University. (Section 3)

To recognize that the professors' assessment of the student involved in each general education class is a reflection of the students' performance related to the General Education Goal Criteria of the class. (Section 3)

To assess of the general education programs ability to encourage students to take a diversity of classes. (Section 3)

The survey would assess every General Education Course offered during the academic year Fall 2009 and Spring 2010. (Section 5)

The survey assessment would be given to all professors who taught a General Education Course at any and all Webster University Campuses. (Section 5)

In the process of completing the survey, the professor is reminded that their course is coded and how the course is coded. (Section 5)

In the process of completing the survey, the professor is reminded of their responsibility in relating the learning outcomes to their students in both the syllabus and the class. (Section 5)

In the process of completing the survey, the professor is reminded that the General Education material taught in the course must be assessed in the course. (Section 5)

The professor is encouraged to consider ways in which the course and the syllabus might be improved in order to better relate General Education material to the student and assess that material. (Section 5)

The professor is given the opportunity to give their opinion concerning the General Education Program and ways in which the program might be improved. (Section 5)

The Program Director or Department Chair has the opportunity to review, in detail, the coded General Education Courses offered at their site or within their department. (Section 5)

The statistical analysis of the results of the survey allow all faculty and administration members to view the state of the General Education Program in relation to individual, site or departmental, and university wide implementation. (Section 5)

The results also offer the Curriculum Committee the opportunity to consider any recommendations for modification as suggested by the professors who teach the General Education Coded courses. (Section 5)

Section 2

Webster University Institutional Assessment Of The General Education Program 2009-2010

PROPOSAL

Rational and Method

INTRODUCTION

This Proposal has been developed by the Coordinator of the Webster University General Education Program. The proposal is submitted to the Webster University Curriculum Committee for their consideration. If this proposal is approved by the Curriculum Committee, then the committee will form the General Education Assessment Task Force. The main goal of this General Education Assessment Task Force will be the implementation of this Proposal in a timely manner.

RATIONAL

The Higher Learning Commission requires a periodic assessment of the Webster University General Education Program. This assessment is done in order to determine whether the outcomes of this program meet the general education goal as stated by the Commission:

“assessment of appropriate student academic achievement in all its programs, documenting:

- completion of an identifiable and coherent undergraduate level general education component”

From: Page 14 addendum of the Handbook of accreditation , 2nd Edition – Under Criterion 3

Webster University is committed to provide the highest quality education to its students. As part of this commitment, Webster University periodically assesses the Webster University General Education Program. These assessments occur every five (5) years. The last assessment of the General Education Program was 2004-2005.

ASSESSMENT METHOD

The Webster University General Education Program will be evaluated by way of multiple Assessments. There are five (5) assessment areas. They are:

First, each undergraduate student graduating from Webster University is required to complete the Webster University General Education Requirements for their area. Since this is a graduation requirement, 100% of Webster University graduates do indeed complete ‘an identifiable and coherent undergraduate level general education component’. This aspect has already been assessed by virtue of undergraduate graduation records.

A second statistical analysis will be completed and will provide Webster University with information that can validate whether the general education program has been successful in having students complete their undergraduate education with a more diverse

educational experience. The analysis will assess (this was also done in the 2004-2005 assessment) the average number of different prefix selections of students in years before the implementation of the general education program and in the years after the implementation of the general education program. This statistical analysis will address both the 9 Code GER and the School of Communication Three Category GER. The General Education Task Force will work with the appropriate Webster University personnel in this statistical analysis (for 2&3)

A third analysis of those NSSE assessment items that relate to General Education Program outcomes will also be done each time the NSSE assessment is implemented.

A fourth analysis of the General Education Student Assessment (the major student assessment) results will be included. This General Education Student Assessment was developed as a result of recommendations from the 2004-2005 General Education assessment. The first student survey was piloted in summer of 2007 and permanently implemented during the 2007-2008 Academic Year.

A fifth individual course assessment (the major curriculum assessment) will examine whether coded courses continue to meet General Education goals and learning outcomes. This assessment will also investigate whether General Education learning outcomes are related to students in their course syllabi and assessed in course evaluations. The major assessment to be done on a cyclical basis (every 5 years).

ORGANIZATION OF FINAL PRELIMINARY REPORT

A final preliminary report will be generated. This report will include the following sections:

Section 1 Introduction

Section 2 General Education Assessment Proposal

Section 3 General Education Courses

Section 4 General Education and the Mission of the University

Section 5 Historical Development

Section 6 Course Approval and Assessment History

Section 7 Student Assessment

Section 8 Assessment of the General Education Program (Process)

Section 9 Assessment of the General Education Program (Results)

Section 10 Recommendations

Appendix A – Exhibits

A Final Document will be the overall objective of the Webster University General Education Assessment. This Final General Education 2009-2010 Assessment Document results when the Final Preliminary Report is approved (modified if required) by the Webster University Curriculum Committee.

SURVEY FORMS USED IN THE STUDENT AND CURRICULUM ASSESSMENT OF GENERAL EDUCATION

Two survey forms are used in the assessment of General Education (student and curriculum). The first, is currently being utilized in the assessment of Webster University students who have completed the Webster University General Education Program.

The second survey will be used to attain information from faculty and department heads who are involved in either teaching or departmental administration of General Education courses.

A significant part of the assessment results will be generated from data collected from these surveys.

The two surveys are:

GENERAL EDUCATION STUDENT ASSESSMENT GUIDELINES AND FORMS

Assessment

Each student who has completed the General Education Requirements set forth by Webster University is assessed on an ongoing basis. This assessment involves:

1. The completion of the Webster University General Education Requirements by the student. Therefore, each student is assessed individually in each General Education course completed and also assessed as to whether they completed all of the General Education Requirements necessary for graduation from Webster University.
2. Student records are assessed to decide whether our General Education Requirements provide students with a wider diversity in regard to their educational experience.
3. The continuation of the use of selected NESSE questions that relate to the 9 general education areas.
4. The completion of the General Education Student Assessment. The objectives of the General Education Student Assessment are:
 - A. Assess (via survey) student attitudes relating to each of the nine areas of knowledge that the faculty at Webster University consider essential for a well rounded university education.
 - B. Collect demographic and educational information that can be used in the statistical analysis of the results.
5. The results of these student assessments will be included as a part of the report to be presented to the Webster University Curriculum Committee.

GENERAL EDUCATION STUDENT ASSESSMENT

Male ___ Female ___

How many of your General Education Credits did you Complete at Webster?
all___ part___ none _____

From which School or College did you Major _____ Business/Management
_____ Arts and Science ___ Education _____ Communications _____ Fine Arts

DIRECTIONS: Please answer each question. Rate each answer using the rating (1-5) as explained below. Do this for each question in regard to your ability When You Entered Webster and Now.

Poor	Very Poor	Good	Very Good	Excellent
1	2	3	4	5

<u>When I</u>					
<u>Entered Webster</u>					<u>Now</u>

CRITICAL THINKING:

- | | | | | | | | | | | |
|--|---|---|---|---|---|---|---|---|---|---|
| 1. I can systematically examine and evaluate arguments. | 1 | 2 | 3 | 4 | 5 | 1 | 2 | 3 | 4 | 5 |
| 2. I have the ability to examine arguments by identifying, analyzing, and evaluating claims. | 1 | 2 | 3 | 4 | 5 | 1 | 2 | 3 | 4 | 5 |

COMMUNICATIONS:

- | | | | | | | | | | | |
|--|---|---|---|---|---|---|---|---|---|---|
| 3. I can write and speak in a clear and concise manner. | 1 | 2 | 3 | 4 | 5 | 1 | 2 | 3 | 4 | 5 |
| 4. I have had significant opportunities to utilize, practice, and improve my literacy. | 1 | 2 | 3 | 4 | 5 | 1 | 2 | 3 | 4 | 5 |

HISTORICAL CONSCIOUSNESS:

- | | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| 5. I can recognize causes, relationships and sequences in historical events.. | 1 | 2 | 3 | 4 | 5 | 1 | 2 | 3 | 4 | 5 |
| 6. I can use historical evidence. | | | | | | | | | | |

HUMANITIES:

7. I know the difference between primary and secondary texts.	1 2 3 4 5	1 2 3 4 5
	When I	
	<u>Entered Webster</u>	<u>Now</u>
8. I am comfortable interpreting primary texts.	1 2 3 4 5	1 2 3 4 5
9. I can discuss multiple perspectives on themes of the human condition.	1 2 3 4 5	1 2 3 4 5
VALUES:		
10. I can discuss the attitudes and beliefs that underline ethical choices.	1 2 3 4 5	1 2 3 4 5
11. I can discuss the attitudes and beliefs that are relevant to individual social choices and actions.	1 2 3 4 5	1 2 3 4 5
CULTURAL UNDERSTANDING:		
12. I can compare different cultures within my own society.	1 2 3 4 5	1 2 3 4 5
13. I can discuss similarities and differences between cultures.	1 2 3 4 5	1 2 3 4 5
ARTS APPRECIATION:		
14. I have analyzed or been involved in the artistic creative process.	1 2 3 4 5	1 2 3 4 5
15. I can discuss the qualities of the varied forms of the arts.	1 2 3 4 5	1 2 3 4 5
SCIENTIFIC UNDERSTANDING:		
16. I can describe how theories are formed, tested and validated.	1 2 3 4 5	1 2 3 4 5
17. I can describe the difference between scientific and nonscientific reasoning.	1 2 3 4 5	1 2 3 4 5
MATHEMATICS:		
18. I can reason logically.	1 2 3 4 5	1 2 3 4 5
19. I can judge the role of mathematical reasoning in real-life situations.	1 2 3 4 5	1 2 3 4 5

GENERAL EDUCATION COURSE ASSESSMENT
GUIDELINES AND FORMS

Assessment

Each course that is coded for General Education will be assessed (via survey). This assessment will include:

1. The course syllabus

3. The completion of the General Education Course Assessment. The objectives of the General Education Course Assessment are:
 - A. Assess, from the instructors/assessors opinion of the course, whether the course meets the General Education Criteria for its code.

 - B. Assess, from the syllabus, how the syllabus relates to the student the General Education Course Learning Outcomes. Relate how student achievement of General Education Course Learning Outcomes is assessed in the course.

 - C. Assess how the syllabus could be improved in regard to relating General Education Course Learning Outcomes and assessment of these learning outcomes.

 - D. Have the faculty supervisor review and approve each survey.

3. These assessments should then be sent to The Curriculum Committee (General Education Task Force) no later then

GENERAL EDUCATION COURSE ASSESSMENT

COURSE PREFIX, NUMBER & SECTION _____

COURSE NAME _____

DEPARTMENT CHAIR VERIFICATION

I approve this assessment and verify that this Gen. Ed. Course continues to meet the learning outcome criteria for its Code (s)

Department Chair (Signed) _____

Approved by the Curriculum Committee and Academic Affairs 00/00

GENERAL EDUCATION LEARNING OUTCOME CRITERIA

GENERAL EDUCATION LEARNING OUTCOME: CRITICAL THINKING

DEFINITION: A systematic method of examining and evaluating arguments.

LEARNING OUTCOME CRITERIA FOR A CRITICAL THINKING COURSE OR EXPERIENCE:

- Student learns a systematic approach to thinking
- Student learns how to examine arguments by identifying, analyzing, and evaluating claims and the evidence offered in support of these claims
- Student learns about inquiry process, not content
- Student learns through active participation

GENERAL EDUCATION LEARNING OUTCOME: COMMUNICATIONS

DEFINITION: Writing and speaking, which are clear, concise and accurate when conveyed to a broad audience.

LEARNING OUTCOME CRITERIA FOR A COMMUNICATIONS COURSE OR EXPERIENCE:

- Student learns a systematic approach to written or oral communications in English
- Student learns how to utilize, practice, and improve these components of literacy

GENERAL EDUCATION LEARNING OUTCOME: HISTORICAL CONSCIOUSNESS

DEFINITION: Recognition of causes, relationships and sequences within seemingly random social and historical events.

LEARNING OUTCOME CRITERIA FOR A HISTORICAL CONSCIOUSNESS COURSE OR EXPERIENCE:

- Student learns to imbue facts within their human contexts
- Student learns to examine multiple causality in events
- Student learns about establishing a sense of sequence
- Student learns to utilize historical evidence

GENERAL EDUCATION LEARNING OUTCOME: HUMANITIES

DEFINITION: Analysis of the themes of human experiences through the legacy of great works and ideas.

LEARNING OUTCOME CRITERIA FOR A HUMANITIES COURSE OR EXPERIENCE:

- Student learns to utilize original works or texts instead of secondary interpretations
- Student learns about multiple perspectives on themes of the human condition

GENERAL EDUCATION LEARNING OUTCOME: VALUES

DEFINITION: Critical reflection on the attitudes and beliefs relevant to individual and social choices and actions.

LEARNING OUTCOME CRITERIA FOR A VALUES COURSE OR EXPERIENCE:

- Student learns a wide range of normative standards for ethical choices
- Student is able to articulate and critique the attitudes and beliefs that underlie ethical choices

GENERAL EDUCATION LEARNING OUTCOME: CULTURAL UNDERSTANDING

DEFINITION: Examination and comparison of international and/or diverse cultures

LEARNING OUTCOME CRITERIA FOR A CULTURAL UNDERSTANDING COURSE OR EXPERIENCE

- Student learns about global or international perspectives, or learns about comparative study of different cultures within one's own society
- Student learns to reflect on his/her own culture in light of another culture
- Student learns about difference and similarity among cultures.

GENERAL EDUCATION LEARNING OUTCOME: ARTS APPRECIATION

DEFINITION: Recognition of artistic expressions gained through analysis, reflection or practical experience.

LEARNING OUTCOME CRITERIA FOR AN ARTS APPRECIATION COURSE OR EXPERIENCE.

- Student learns the languages and the formal qualities of the varied forms of the arts
- Student learns through active observation, participation and response
- Student learns about the creative process

GENERAL EDUCATION LEARNING OUTCOME: SCIENTIFIC UNDERSTANDING

DEFINITION: Analysis of concepts of a scientific discipline and its methods, limitations, and impact in the modern world.

LEARNING OUTCOME CRITERIA FOR A SCIENTIFIC UNDERSTANDING COURSE OR EXPERIENCE:

- Student learns how theories are formed, tested and validated
- Student learns To discriminate between conclusions developed from the application of scientific and of nonscientific reasoning
- Student learns how to differentiate between observation and inferences, and between accidental discovery and the scientific method.

GENERAL EDUCATION LEARNING OUTCOME: MATHEMATICS

DEFINITION: Recognition of the value and beauty of mathematics as well as the ability to appraise and use quantitative data.

LEARNING OUTCOME CRITERIA FOR A MATHEMATICS COURSE OR EXPERIENCE:

- Student learns to explore, conjecture and reason logically
- Student learns a variety of mathematical methods effectively to solve non routine problem
- Student learns to judge the role of mathematical reasoning in real-life situations
- Student learns to communicate mathematically.

WEBSTER UNIVERSITY INSTITUTIONAL ASSESSMENT OF THE GENERAL EDUCATION PROGRAM-TASK FORCE-BASIC PROCESS AND TIMELINE

A task force of 4 members of the Curriculum Committee and the Coordinator of the Webster University General Education Program (ex officio) will serve to:

1. Work with the Administration in the implementation of the five (5) areas of assessment. This implementation will primarily occur in the 2009-2010 academic year. The General Education Assessment Task Force will begin work in Spring of 2009. The 2009-2010 General Education Assessment Proposal will be presented to the Webster University Curriculum Committee for their consideration and approval in Fall of 2008.
2. Develop a preliminary report by October of 2010, which will include
 - a. A narrative of the historical development of the General Education Program including how the General Education Program relates to the overall Mission of Webster University.
 - b. A narrative of the history of assessment of General Education Courses by the Department, Curriculum Committee and the current assessment process.
 - c. An overview of the results of the four assessment areas with introductory narratives relating the rationale for each.
 - d. Recommendations.
3. The Curriculum committee will discuss and modify the preliminary report as needed. (Fall, 2010)
4. Copies of the Final Report (as approved by the Curriculum Committee) will be distributed to Academic Affairs and the full faculty in Spring of 2011.
5. Follow up steps (recommendations) will be determined by the Curriculum Committee. (beginning Fall, 2011)

DELINEATION OF DUTIES FOR GENERAL EDUCATION ASSESSMENT TASK FORCE

Chair - Introduction and Section 6 (Gary Kannenberg)

Write a General Introduction to the Assessment Document

Write a narrative explaining how the General Education Program relates to the overall Mission of Webster University.

Be responsible for including the recommendations for future assessment (From Curriculum Committee) in the final document.

Responsible for combining all sections into the Final Document.

Help provide information to other committee member that relate to their duties

Consult various Faculty Members for relevant information.

Include Title of Section page and introduction with rational

Member - Section 1 and Section 2 ()

Write a narrative of the historical development of the General Education Program

Write a narrative of the history of the approval process for General Education Courses by the Department, Curriculum Committee and the current Gen. Ed. approval process.

Include information on any faculty retreats/discussions that relate to Gen. Ed.. assessment and any previous assessment initiatives/discussions including the development of the current assessment process (include the current approved assessment document).

Consult various Faculty Members for relevant information.

Include Title of Section page and introduction with rational

Member - **Section 3 ()**

Select and analyze those NESSE and RAND assessment items that relate to General Education Program goals

Oversee the analysis of this data (**Through academic affairs**).

Initiate a second statistical which will provide Webster University with information that can validate whether the general education program has been successful in having students complete their undergraduate education with a more diverse educational experience. The analysis would assess the average number of different prefix selections of students in years before the implementation of the general education program and in the years after the implementation of the general education program. This statistical analysis will address both the 9 Code GER and the School of Communication Three Category GER. The member will work with **appropriate Institutional Research and Assessment personnel at Webster University** in this statistical analysis.

Written narrative explaining that successful completion of each required Gen. Ed. Is a strong indication that the student has attained the Gen. Ed. Goals for that course. Also note the student assessment process for waving Gen. Ed. Requirements (transfer students)

Include Title of Section page and introduction with rational.

Member - **Section 4 ()**

Individual course assessment (the major assessment)will examine whether coded courses continue to meet GER goal and assess students in regard to attaining these goals (Outcomes). **Through academic affairs**.

1. Face letter – Introduction/Explanation
2. Distribution/Collection of the Survey
3. Follow-up (With Chairs to have them encourage all adj. And full time faculty to complete Survey.

Include Title of Section page and introduction with rational.

Member - **Section 5 ()**

Individual course assessment (the major assessment) will examine whether coded courses continue to meet GER goal and assess students in regard to attaining these goals (Outcomes). **Work with appropriate Institutional Research and Assessment personnel at Webster University**

1. By department analysis (item)
2. By school/college analysis (item)
3. Overall analysis (item)
4. Adj. Vs. Full time faculty results

Include Title of Section page and introduction with rationale.

Section 3

General Education Courses

The Current General Education Courses Offered

The following pages include the courses currently offered in the General Education Courses offered at Webster University (not including the General Education Courses Accepted by the School of Communications General Education Program). The courses are listed by 1. Educational Goal 2. By Alpha-Numeric Listing 3. A General Education Coding Analysis by Department.

General Education and the Mission of the University

A statement of the Mission and Scope of Webster University and a statement of the General Education Goals is found on page 7 of the Webster University 2003-2005 Undergraduate Studies Catalog. It reads:

Mission and Scope of Webster University

Webster University is an independent, comprehensive, nondenominational, multicampus, international university with undergraduate and graduate programs in various disciplines, including the liberal arts and sciences, the fine and performing arts, teacher education, communications, and business and technology.

Webster University combines the cultural and intellectual legacies of the past with a pragmatic concern for meeting the challenges of the present and the future. In doing so, Webster University:

Creates a student-centered environment accessible to individuals of diverse age, cultures, and socioeconomic backgrounds.

Sustains a personalized approach to education through small classes and close relationships among faculty and students.

Develops educational programs that join theory and practice and instill in students the spirit of systematic inquiry.

Encourages creativity, scholarship, and individual enterprise in its students and faculty.

Promotes international perspectives in the curriculum and among students and faculty.

Encourages in its students a critical cast of mind, a respect for diversity, and an understanding of their own and others' values.

Fosters in its students a lifelong desire to learn and a commitment to contribute actively to their communities and the world.

Educates diverse populations locally, regionally, nationally, and internationally.

Strengthens the communities it serves through support of civic, cultural, corporate, and educational organizations.

Webster University was established in 1915 in Webster Groves, Missouri. The University now serves students at its home campus; at four other locations in metropolitan St. Louis; on military bases across the United States; at campuses in 28 other U.S. cities and internationally at four European campuses, in Bermuda, in China, and in Thailand.

General Education Goals

A coherent baccalaureate program provides opportunity for the study of a discipline in depth while at the same time enabling students to obtain a broad general education within the context of their individual goals. Webster University acknowledges that the ideal components of general education can be addressed throughout the curriculum and that this learning may occur in a variety of ways. The University requires all baccalaureate students to complete a general education program. The following nine goals are the framework for this program:

1. **Critical Thinking** (a systematic method of examining and evaluating arguments).
2. **Communications** (writing and speaking that are clear, concise, and accurate when conveyed to a broad audience).
3. **Historical Consciousness** (recognition of causes, relationships, and sequences within seemingly random social and historical events).
4. **Humanities** (analysis of the themes of human experience through the legacy of great works and ideas).
5. **Values** (critical reflection on the attitudes and beliefs relevant to individual and social choices and actions);.
6. **Cultural Understanding** (examination and comparison of international and /or diverse cultures)
7. **Arts Appreciation** (recognition of artistic expressions gained through analysis, reflection, or practical experience).
8. **Scientific Understanding** (analysis of concepts of a scientific discipline and its methods, limitations, and impact in the modern world).
9. **Mathematics** (recognition of the value and beauty of mathematics, as well as the ability to use geometric, algebraic, or numerical reasoning).

Webster University is committed to the idea that these processes, methods, experiences, and skills can be acquired by individual in a variety of ways, in numerous fields of study, and at varying times in their academic lives. Generally, students satisfy the general education requirement by taking one 3-credit-hour course in each of the nine areas. See the section titled Academic Policies and Information for specific details for each degree program.

The nine General Education Goals are directly related to the Mission of the University in a number of ways.

1. The General Education Program helps “ promote international perspectives in the curriculum and among students ...” through the Values, Humanities, Historical Consciousness, and Cultural Understanding goals. Each of these goals either directly or indirectly are intended to help the student become aware of an international perspective.

The Cultural Understanding goal specifically is intended to promote global or international perspectives and offer a comparative study of different cultures within one’s own society. This goal also encourages students to reflect on their own culture as it relates to other cultures and also encourages understanding of cultural similarities and differences.

2. The General Education Program helps to “encourage creativity...”. This aspect of Mission is specifically addressed in the Arts Appreciation goal by encouraging student to analyze or become involved in the creative process.
3. The General Education Program addresses that aspect of the Mission intended to “join theory and practice and instill in students the spirit of inquiry. “ through the General Education goal of Scientific Understanding. Scientific Understanding goal is intended to help the student understand how theories are formed, tested and validated and to learn to discriminate between scientific and nonscientific reasoning.
4. The General Education Program “Encourages in its students a critical cast of mind, a respect for diversity, and an understanding of their own and others’ values.” in a variety of ways. Students are encouraged to develop a ‘critical cast of mind’ not only from the Critical Thinking goal but also from the Mathematics goal where students are allowed to explore, conjecture and reason logically and judge the role of mathematical reasoning in real-life situations. The development of ‘a critical cast of mind’ is also a function of being able to communicate ones own position. The Communication goal is related to many aspects of the Mission of the University including this one. The Communication goal provides students opportunities to use, practice, and improve written and oral communications in English.

5. Lastly, it would be difficult for students to develop “ a commitment to contribute actively to their communities and the world.” without the knowledge of various cultures (Cultural Understanding, Historical Consciousness, Humanities, Values) ability to ascertain the needs (Critical Thinking), and effectively communicate with communities and the world (Communication).

Section 5

Historical Development

History of General Education and Gen Ed Assessment at Webster

The Birth of Gen Ed at Webster

Webster's General Education program was approved by the faculty in the fall of 1992 and first instituted as a requirement for students who matriculated in the fall 1994. The origins of the program, however, go back to faculty discussions in the mid to late 1980's. At that time, a faculty committee developed a list of voluntary general education goals which students were urged (but not required) to fulfill during their time at Webster. A team visit by North Central accreditors in 1988 pushed Webster to develop a set of clear and sensible requirements. The North Central report described Webster's existing general education program as "ineffective." In response, the Curriculum Committee created three task forces to work on reform in the areas of student "skills, breadth, and commonality." In the fall of 1991, the committee recommended that all Bachelor of Arts (BA) students be required to "address" nine general education goals. Students pursuing Professional Baccalaureates (BFA, BM, BSN) were expected to address at least four of those same goals.

The Faculty Assembly passed this proposal with the stipulation that the curriculum committee develop criteria for coding courses that meet the general education requirements. The faculty motion declared that, "decisions regarding the application of course codes to specific courses [would] be made by each department with periodic review of syllabi and departmental coding by the curriculum committee." Courses were allowed to carry up to *two* general education code designations.

Finally, the faculty charged the curriculum committee with evaluating the general education program on an ongoing basis. The committee was to issue a yearly progress report and to make a full systematic evaluation within four years after the program's implementation.

The Communications School was the only segment of the university to opt out of this arrangement and to develop their own distinct Gen Ed program. Communications instituted a system of four general education goals with *[insert description here.]*

Since the creation of the Gen Ed program, Curriculum Committee has developed procedures and specific forms for approving courses' Gen Ed coding. Applications for coding must be approved by the department chairs and the deans. The course designer must also explain how the course meets the particular Gen Ed goal. The Curriculum Committee now allows only *one* Gen Ed code designation per new course.

Section 6

Course Approval And Assessment History

General Education Assessment History at Webster

The 1995-1998 Assessment of the Webster University General Education Program

The first major assessment of the General Education program at Webster was done between 1995 and 1998. The assessment was carried out by the Office of Analysis and Grants, with guidance from the Coordinator of General Education, Bruce Longworth. Starting in 1995-1996, the assessors systematically reviewed student learning outcomes in three of the general education areas per year.

The schedule of assessment was as follows:

- 1995-1996: Critical Thinking, Cultural Understanding, Values
- 1996-1997: Communications, Historical Consciousness, and Humanities
- 1997-1998: Arts Appreciation, Scientific Understanding, Mathematics

The assessors sent out questionnaires to a group of students and faculty participating in general education courses. The purpose was to determine how well students and faculty understood GE goals and whether courses coded for a particular goal in fact helped students attain the promised skills and knowledge base. In the second year of assessment, to give an example, 880 completed questionnaires were received from 73 separate classes from all “major” U.S. and European sites.

Faculty participating in the study were asked to discuss the function of GE with their students. They were required to send the GE coordinator a copy of the syllabus and blank copies of exams or parameters of the course’s major projects. All of this information was then processed by the Office of Analysis and Grants.

The results of all of the assessment efforts were summarized as positive. The faculty and students consistently indicated strong understanding of GE goals. In the second year study:

- 93 % of all respondents stated that they understood the goal definition and criteria
- 71% felt the course they took contributed to their broader educational goals

These were especially encouraging results, given that 38% of these students had chosen their class specifically to satisfy a GE requirement.

The Portfolio Review Project

One year prior to the GE assessment, the university also did a major assessment of student writing. The purpose of the “portfolio assessment project” was not to evaluate general education per se, but to explore a number of questions about student achievement closely related to the general education goals. This assessment asked:

-
- How much homework do Webster students do?
- What is the nature and rigor of this homework?
- How much writing do students do?
- What kind of tests do they take? How many tests?
- Is there a difference between upper and lower division work?

The committee collected writing samples from 41 students over the course of the 1993-1994 school year. These portfolios were then examined by six faculty members, looking at six different areas of emphasis. A literature professor evaluated the portfolios in terms of writing skills and critical thinking. A history professor considered the papers for evidence of “cultural awareness.” A math and computer science professor considered mathematical content. Another literature professor focused exclusively on the issue of critical thinking.

At the end of the year, an interviewer conducted discussions with each of the students who participated in the project, presenting questions designed by the faculty.

The portfolio project resulted in reports by each of the faculty examiners and a set of recommendations for all faculty concerning the teaching of writing and the implementation of general goals in particular.

Current Assessment Project

The current Gen Ed assessment project was initiated by the Curriculum Committee in the winter of 2002-2003. A first taskforce made broad recommendations for a campus discussion on assessment, including both procedural suggestions and substantive questions on the success or failure of General Education that faculty needed to consider.

The questions developed by the first assessment taskforce then provided the basis for faculty discussions at the Spring 2003 Faculty Institute. After a lecture by the assessment coordinator from Portland State University, faculty divided into three break-out groups. Each group focused on one of the areas:

1. Is the current structure of the General Education Program satisfactory?

Follow-up Questions:

- a) Does the division of Gen Ed requirements into nine categories make sense? Are the divisions logically consistent? Do the categories correspond to nine distinct skills or areas of knowledge, which are the focus of Webster classes?
- b) Is the purpose of Gen Ed requirements readily comprehensible to students? Can faculty advisers easily explain to students why they must cover this particular range of courses in their Webster education?
- c) Do the Gen Ed requirements correspond to the broader goals of Webster University?
- d) Should there be a more specific writing requirement connected to some of the Gen Ed categories?

2. Are the administration and implementation of Gen Ed requirements effective?

Follow-up Questions:

- a) Should students have more (or less) choice in how they fulfill Gen Ed requirements?
- b) Should one course be allowed to meet the requirements in two areas of distribution?
- c) Are faculty satisfied with the current system for auditing students?
- d) Is there a sensible and fair process by which courses are approved as meeting Gen Ed requirements?
- e) Are the roles of the Curriculum Committee and the Gen Ed coordinator understood? Should their responsibilities regarding Gen Ed courses be expanded or refined?

3. How should we assess the quality and effectiveness of the General Education program?

Follow-up questions:

- a) Should we perform a comprehensive survey of student opinion regarding the Gen Ed program and individual Gen Ed courses? (Note: this was part of the five-year evaluation, 1996-98) Should we survey the faculty?

- b) Should an assessment committee attempt to evaluate students' actual progress ("the learning outcomes") in the nine distribution areas of the General Education Program? If so, how?
- c) Are the faculty willing to commit time and university resources to:
- evaluate "writing portfolios" of randomly selected students over the course of their time at Webster? (Note: This was done 1993-1997)
 - test students on the knowledge or skills they were supposed to develop in Gen Ed courses?
 - visit and observe Gen Ed classes?
- d. Should an assessment committee monitor the syllabi, course materials, and instructional methods used in Gen Ed courses and evaluate the appropriateness of Gen Ed coding for these classes?

A summary of these faculty discussions was prepared by the facilitators and should be available from the faculty senate.

The 2004-2005 Assessment of the Webster University General Education Program

The 2004-2005 Assessment of the Webster University General Education Program was the second major assessment to be performed.

General Education Course Approval Process

The Webster University Curriculum Committee has the responsibility of receiving and reviewing applications for adding new General Education Courses to the existing Program (or deleting existing General education courses).

Those wishing to request approval from the Curriculum Committee for the addition of a new General Education Code for a new or existing course must complete the application form found on the following pages.

General Education Course Coding Form

Directions:

1. Complete this form. (Contact the Coordinator of General Education if you have any questions.)
2. Attach a syllabus or course guidelines that includes
 - a. list of measurable student learning outcomes
 - b. information on how outcomes will be assessed including descriptions of reading and writing activities, projects, presentations, testing, etc
 - c. list of course requirements such as attendance, assignments, etc
3. Have your proposal reviewed by the appropriate department and school/college committee.
4. Submit your proposal to the University Curriculum Committee in care of the Office of Academic Affairs.

Form Information:

1. Department/Program: _____
2. Course Information: _____ / _____ / _____
(1000 & 2000 only) Prefix Number Title

Note: Once a course number has been assigned a gen ed code, all sections of that course will have the same code.

If the course is a topics or issues course the last digit in the number should designate its code according to the following guidelines. Topics or issues course 2300 has no code, 2301 is coded for Critical Thinking, 2302 is coded for Communications, 2303 is coded for Historical Consciousness, 2304 is coded for Humanities, 2305 is coded for Values, 2306 is coded for Cultural understand, 2307 is coded for Arts Appreciation, 2308 is coded for Scientific Understanding, and 2309 is coded for Mathematics.

3. General Education Code requested _____ (List only one code)
4. Does this course have a prerequisite ? _____ (General Education Courses should not have prerequisites)
5. Will this course be taught in an online format? _____

6. Indicate how the learning objectives on the attached syllabus meet the General Education Criteria (below) for the requested code.

Use additional paper if needed

7. Check all that apply..

GEN ED GOALS FOR THE CODE(S) ARE IDENTIFIED ON THE SYLLABUS IN:

COURSE DESCRIPTION _____
COURSE OBJECTIVES/OUTCOMES _____
PROCESS OF THE COURSE _____
OTHER _____

STUDENT ACHIEVEMENT OF GEN. ED. GOALS ARE ASSESSED WITHIN:

EXAMS _____

GENERAL EDUCATION LEARNING OUTCOME: CRITICAL THINKING

DEFINITION: A systematic method of examining and evaluating arguments.

LEARNING OUTCOME CRITERIA FOR A CRITICAL THINKING COURSE OR EXPERIENCE:

- **Student learns a systematic approach to thinking**
- **Student learns how to examine arguments by identifying, analyzing, and evaluating claims and the evidence offered in support of these claims**
- **Student learns about inquiry process, not content**
- **Student learns through active participation**

GENERAL EDUCATION LEARNING OUTCOME: COMMUNICATIONS

DEFINITION: Writing and speaking, which are clear, concise and accurate when conveyed to a broad audience.

LEARNING OUTCOME CRITERIA FOR A COMMUNICATIONS COURSE OR EXPERIENCE:

- **Student learns a systematic approach to written or oral communications in English**
- **Student learns how to utilize, practice, and improve these components of literacy**

GENERAL EDUCATION LEARNING OUTCOME: HISTORICAL CONSCIOUSNESS

DEFINITION: Recognition of causes, relationships and sequences within seemingly random social and historical events.

LEARNING OUTCOME CRITERIA FOR A HISTORICAL CONSCIOUSNESS COURSE OR EXPERIENCE:

- **Student learns to imbue facts within their human contexts**
- **Student learns to examine multiple causality in events**
- **Student learns about establishing a sense of sequence**
- **Student learns to utilize historical evidence**

GENERAL EDUCATION LEARNING OUTCOME: HUMANITIES

DEFINITION: Analysis of the themes of human experiences through the legacy of great works and ideas.

LEARNING OUTCOME CRITERIA FOR A HUMANITIES COURSE OR EXPERIENCE:

- **Student learns to utilize original works or texts instead of secondary interpretations**
- **Student learns about multiple perspectives on themes of the human condition**

GENERAL EDUCATION LEARNING OUTCOME: VALUES

DEFINITION: Critical reflection on the attitudes and beliefs relevant to individual and social choices and actions.

LEARNING OUTCOME CRITERIA FOR A VALUES COURSE OR EXPERIENCE:

- **Student learns a wide range of normative standards for ethical choices**
- **Student is able to articulate and critique the attitudes and beliefs that underlie ethical choices**

GENERAL EDUCATION LEARNING OUTCOME: CULTURAL UNDERSTANDING

DEFINITION: Examination and comparison of international and/or diverse

cultures

LEARNING OUTCOME CRITERIA FOR A CULTURAL UNDERSTANDING COURSE OR EXPERIENCE

- Student learns about global or international perspectives, or learns about comparative study of different cultures within one's own society
- Student learns to reflect on his/her own culture in light of another culture
- Student learns about difference and similarity among cultures.

GENERAL EDUCATION LEARNING OUTCOME: ARTS APPRECIATION

DEFINITION: Recognition of artistic expressions gained through analysis, reflection or practical experience.

LEARNING OUTCOME CRITERIA FOR AN ARTS APPRECIATION COURSE OR EXPERIENCE.

- Student learns the languages and the formal qualities of the varied forms of the arts
- Student learns through active observation, participation and response
- Student learns about the creative process

GENERAL EDUCATION LEARNING OUTCOME: SCIENTIFIC UNDERSTANDING

DEFINITION: Analysis of concepts of a scientific discipline and its methods, limitations, and impact in the modern world.

LEARNING OUTCOME CRITERIA FOR A SCIENTIFIC UNDERSTANDING COURSE OR EXPERIENCE:

- Student learns how theories are formed, tested and validated
- Student learns To discriminate between conclusions developed from the application of scientific and of nonscientific reasoning
- Student learns how to differentiate between observation and inferences, and between accidental discovery and the scientific method.

GENERAL EDUCATION LEARNING OUTCOME: MATHEMATICS

DEFINITION: Recognition of the value and beauty of mathematics as well as the ability to appraise and use quantitative data.

LEARNING OUTCOME CRITERIA FOR A MATHEMATICS COURSE OR EXPERIENCE:

- Student learns to explore, conjecture and reason logically
- Student learns a variety of mathematical methods effectively to solve non routine problem
- Student learns to judge the role of mathematical reasoning in real-life situations
- Student learns to communicate mathematically.

Section 7

Student Assessment

Introduction

The purpose of this section is to assess the Webster University General Education Program in terms of its effect on student education. This section addresses four (4) student education indicators.

First - Two standards of measurement are used: NESSE and RAND—nationally recognized modes of student assessment—and diversity of educational experience.

Second – The professors assessment of the student involved in each general education class taken.

Third – The assessment of the general education programs ability to encourage students to take a diversity of classes.

Forth – The assessment (survey) of Webster University students who have completed the General Education Program at Webster University.

For NESSE, it appears that certain items are a reflection of the goals of the Webster General Education program. These items have been identified (and the General Education goals to which they relate) and scores from NESSE have been used to indicate how we compare to other universities on these items. Webster’s program seems to possess significant advantages over other schools with respect to some of these items (see report entitled “NESSE 2003 Survey Items Relating to General Education Goals Analysis January, 2005”). For RAND, which consists of a series of critical thinking tests, performance tasks for integrating information from various sources, and prompts for making and breaking arguments, it appears that Webster General Education goals offer a close parallel, with its categories of Critical Thinking, Communication, Math, Scientific Understanding, and Historical Consciousness, which emphasizes integrating information from seemingly disparate sources and events. Webster students complete courses whose general education goals by and large meet the RAND criteria.

It should be noted that successful completion of each required general education course is a strong indication that the student has attained the general education goal for that course. The Curriculum Committee makes certain that before a course is approved it must meet the general education goals for which it is approved. These goals are reflected and assessed in each course that carries a general education designation. The learning outcomes for each such course are carefully geared toward demonstrating that the student has met the educational goal in question. Hence, if a student successfully completes one of these courses, the student has met the goal.

With respect to diversity of educational experience, a study was generated to assess the average number of different prefix selections of students in years before the implementation of the general education program and in the years after the implementation of the general education program. This study includes both the Communications General Education Program and the Non-Communications General Education Program. It appears that the general education program has led to a more diverse educational experience for Webster students (see report entitled “General Education Program Assessment—Prefix Study Summary January, 2005”).

The General Education Student Survey was developed as a direct result of recommendations made in the 2004-2005 Assessment of the Webster University General Education Program. This survey was developed by the Coordinator of General Education and discussed and modified by a General Education Student Survey Task Force set up by the Webster University Curriculum Committee. The Task Force began its work in 2006 and piloted a General Education Student Survey in the summer and fall semester of 2007. The Survey was administered through the Office of Academic Advising. The results of the pilot were positive and the implementation of the student survey process began in the Spring of 2008.

General Education Student Survey and Results

The following Survey was administered through the Office of Academic Advising. The results of the pilot were positive and the implementation of the student survey process began in the Spring of 2008.

GENERAL EDUCATION STUDENT ASSESSMENT

Male ___ Female ___

How many of your General Education Credits did you Complete at Webster?
all ___ part ___ none ___

From which School or College did you Major _____ Business/Management
_____ Arts and Science ___ Education _____ Communications _____ Fine Arts

DIRECTIONS: Please answer each question. Rate each answer using the rating (1-5) as explained below. Do this for each question in regard to your ability When You Entered Webster and Now.

	Poor 1	Very Poor 2	Good 3	Very Good 4	Excellent 5					
	<u>When I Entered Webster</u>				<u>Now</u>					
CRITICAL THINKING:										
6. I can systematically examine and evaluate arguments.	1	2	3	4	5	1	2	3	4	5
7. I have the ability to examine arguments by identifying, analyzing, and evaluating claims.	1	2	3	4	5	1	2	3	4	5
COMMUNICATIONS:										
8. I can write and speak in a clear and concise manner.	1	2	3	4	5	1	2	3	4	5
9. I have had significant opportunities to utilize, practice, and improve my literacy.	1	2	3	4	5	1	2	3	4	5
HISTORICAL CONSCIOUSNESS:										
10. I can recognize causes, relationships and sequences in historical events..	1	2	3	4	5	1	2	3	4	5
6. I can use historical evidence.										
HUMANITIES:										
7. I know the difference between primary and secondary texts.	1	2	3	4	5	1	2	3	4	5

	<u>When I</u> <u>Entered Webster</u>	<u>Now</u>
12. I am comfortable interpreting primary texts.	1 2 3 4 5	1 2 3 4 5
13. I can discuss multiple perspectives on themes of the human condition.	1 2 3 4 5	1 2 3 4 5
VALUES:		
14. I can discuss the attitudes and beliefs that underline ethical choices.	1 2 3 4 5	1 2 3 4 5
15. I can discuss the attitudes and beliefs that are relevant to individual social choices and actions.	1 2 3 4 5	1 2 3 4 5
CULTURAL UNDERSTANDING:		
12. I can compare different cultures within my own society.	1 2 3 4 5	1 2 3 4 5
13. I can discuss similarities and differences between cultures.	1 2 3 4 5	1 2 3 4 5
ARTS APPRECIATION:		
16. I have analyzed or been involved in the artistic creative process.	1 2 3 4 5	1 2 3 4 5
17. I can discuss the qualities of the varied forms of the arts.	1 2 3 4 5	1 2 3 4 5
SCIENTIFIC UNDERSTANDING:		
16. I can describe how theories are formed, tested and validated.	1 2 3 4 5	1 2 3 4 5
17. I can describe the difference between scientific and nonscientific reasoning.	1 2 3 4 5	1 2 3 4 5
MATHEMATICS:		
18. I can reason logically.	1 2 3 4 5	1 2 3 4 5
19. I can judge the role of mathematical reasoning in real-life situations.	1 2 3 4 5	1 2 3 4 5

NSSE 2003 Survey Items Relating to General Education Goals Analysis January, 2005

A comparison between the responses of Webster University 2003 seniors (n=192) and responses of norm students attending Master's I Universities (n=20,345) to the 2003 National Survey of Student Engagement (NSSE) revealed several differences between Webster and the norm students.

Webster students demonstrated a significantly higher level of engagement than norm students in their responses to questions about Cultural Understanding. Specifically, a higher percentage of Webster students had study abroad experience; felt that Webster encouraged contact among students from different economic, social, racial/ethnic backgrounds; and felt that their institution contributed to their acquiring an understanding of people of other racial/ethnic backgrounds. The difference between Webster and norm responses to these questions was significant at the 99% level.

Still significant, but at a slightly lower level (95%) was the difference between Webster and norm students regarding their interaction in classes: Webster students were more likely to ask questions and contribute to class discussions (COM). Webster students were also more likely to include diverse perspectives in class discussions or assignments (CUL, HUM, VAL).

Although the differences are not statistically significant, Webster students were more likely than norm students to have:

- Worked with other students on projects during class time (COM)
- Had serious conversations with students of a different race or ethnicity (VAL, CUL)
- Had serious conversations with students who are very different from them in terms of religious beliefs, political opinions, or personal values (VAL, CUL)
- Felt that their coursework emphasizes applying theories or concepts to practical problems or in new situations (HUM, CUL, ART, SCI, MTH)
- Felt that their institution contributed to their ability to solve complex real-world problems (CRI, ART, SCI, MTH)

NSSE benchmarks where norm students responded more positively than Webster students, although not statistically significant, include:

- Making a class presentation (CRI, COM, VAL, ART)
- Preparing two or more drafts of a paper or assignment before turning it in (COM)
- Working on a paper or project that required integrating ideas or information from various sources (HST, HUM, VAL, CUL)

- Feeling that their coursework emphasized:
 - analyzing the basic elements of an idea, experience or theory (CRI, HUM, SCI, ART)
 - synthesizing and organizing ideas, information, or experiences (CRI, COM, HST, HUM, ART, MTH)
 - making judgments about the value of information, arguments, or methods (COM, CRI, HST, HUM, VAL, ART, SCI, MTH)
- Having foreign language coursework (CUL)
- Feeling that their institution contributed to their ability to:
 - Write clearly and effectively (COM, CRI, HUM)
 - Think critically and analytically (CRI, SCI, MTH)
 - Analyze quantitative problems (SCI, MTH)
 - Work effectively with others (COM, HUM, VAL, CUL, ART)
 - Develop a personal code of values and ethics (VAL)
 - Contribute to the welfare of their community (HUM, VAL)

Areas of academic engagement where norm students were more likely than Webster students to respond positively, and which were statistically significant at the 95% level, were:

- participating in a community-based project as part of a regular course (COM, VAL, CUL)
- Feeling that their coursework emphasizes memorizing facts, ideas or methods from their courses and readings (HST, MTH)
- Performing community service or volunteer work (VAL, CUL)
- Acquiring the ability to speak clearly and effectively (COM)

The three questions to which the norm response was statistically significantly higher, at the 99% level, than Webster's were:

- Did they do a practicum, internship, field experience, co-op experience, or clinical assignment? (COM, ART)
- Did their institution contribute to their acquiring a broad general education? (all nine goals)
- Did their institution contribute to their acquiring job or work-related knowledge and skills? (COM, VAL, CUL, MTH)

Office of Institutional Research

General Education Program Assessment – Prefix Study
 Summary- REVISED
 February, 2005

The goal of this study was to determine if the General Education program has increased the number of types of classes that Webster University undergraduates take. The Office of Institutional Research assembled course data on two groups of students—those who enrolled before the General Education requirement was established in 1994 (Pre-Gened) and those who enrolled after it was in effect (Post-Gened). The Pre-Gened group consists of 295 freshmen who enrolled in 1991, 1992 or 1993 and completed their degrees at Webster, plus 146 transfer students who completed their degrees at Webster with 90 or more Webster credit hours. The Post-Gened group included 320 freshmen completers and 196 transfer completers with 90+ Webster credit hours, who enrolled in 1994, 1995 or 1996.

The students were grouped by School of Communications and Non-School of Communications and by their programs of study. First, the total number of prefixes for each completing student was counted and then the number of prefixes outside their department was counted. There was a slight overall increase in prefix numbers from the Pre-Gened group to the Post-Gened group.

	Average Change in Number of Course Prefixes			
	Total Prefixes Pre-Gened	Total Prefixes Post-Gened	Non-Dept. Prefixes Pre- Gened	Non-Dept. Prefixes Post- Gened
Freshmen-MCOM	15.0	15.5	12.3	12.3
Freshmen – Non- MCOM	12.0	12.5	9.9	10.1
Transfers-MCOM	11.9	12.5	9.3	9.8
Transfers – Non- MCOM	11.2	11.4	9.3	9.3

The net change for total prefixes was 0.5 for both MCOM and non-MCOM freshmen, 0.6 for MCOM transfers, and 0.2 for non-MCOM transfers. The net change for non-departmental prefixes was 0.0 for MCOM freshmen, 0.3 for non-MCOM freshmen, 0.5 for MCOM transfers, and 0.0 for non-MCOM transfers.

Among freshmen, the programs of study (where numbers of students were sufficient for valid comparison) that showed decreases in the number of course prefixes include Accounting (-1.2 for both total and non-dept.), Biology (-0.9 total and -0.7 non-dept.), and Art (-0.2 total and -0.7 non-dept.). The programs of study showing the most increases in number of course prefixes for freshmen were Anthropology, Film, and Management, where all increases were between 2.0 and 2.7.

The programs of study where transfer students' prefix count decreased significantly were Education, Advertising and Music. Increases in prefixes for transfers

occurred among Business, International Relations, Media Communications and Management majors. Again, these are programs of study where the numbers of students were sufficient for valid comparison.

See Tables “General Education Program Assessment Prefix Study – Freshmen” and “General Education Program Assessment Prefix Study – Transfer Students” for details.

Office of Institutional Research, 2/25/05

The Statistical Detail from the Office of Institutional Research of Prefixes taken Pre and Post General Education.

Section 8

Assessment of the General Education Program (Process)

Gen Ed Assessment 2004-2010 Process History

On November 19th, 2002 the Task Force on assessment of General Education recommended that an institutional process of assessment was needed to evaluate the efficacy of the General Education Program.

On March 21, 2003 the Spring Institute was devoted to the topic of General Education at Webster. Breakout groups were used to discuss Gen Ed with pre-printed questions organized around the areas of structure, implementation and assessment of Gen Ed.

On December 2, 2003, the new Gen Ed Coordinator Gary Kannenberg presented the Gen Ed Task Force Assessment Proposal (including the survey) to the Curriculum Committee.

On December 16, 2003 the Curriculum Committee discussed the proposal. There was interest in how this process would relate to other University wide assessment processes. Warren Rosenblum offered to bring in another plan for consideration.

On March 16, 2004 the original proposal was discussed along with an alternate proposal by Warren Rosenblum. Modifications were made to the original proposal.

On April 6, 2004 the Curriculum Committee approved the latest version of the Proposal for the Institutional Assessment of the General Education Program at Webster University.

On September 13, 2004 the Gen Ed Assessment task Force met to assign responsibilities and discuss steps for distribution and analysis of the Gen Ed Assessment Survey.

On October 14, 2004, Gary Glasgow met with Jim Staley to discuss the specifics of how Academic Affairs would support distribution and analysis of the Gen Ed Survey. (See attached "Questions for Jim Staley"). Academic Affairs agreed to put together and distribute the survey and cover letter from their office under Dr. Neil George's signature. They would also forward the responses to Christine Kemmerer in Institutional Research for tabulation. Questions regarding the survey itself would be answered by a Gen Ed task force member, specifically Gary Glasgow.

On November 1, 2004 the Gen Ed Assessment Committee met to do a final revision of the cover letter for the survey. Later that week, Gary Glasgow sent the cover letter with the survey to Jim Staley (both hard copy and via e-mail).

Due to technical difficulties, the survey was actually sent out later than planned. The survey went out on January 25, 2005, and accordingly we pushed back the due date to March 7, 2005

A reminder letter was drafted on 2/17/05 and sent to Jim Staley for distribution.

During the period from 1/25/05 to 3/11/05, Gary Glasgow responded to approximately 10 inquiries regarding the survey. Three were for extensions on the return date, and approximately seven were regarding the survey itself, specifically the section at the top regarding “Code 1” and “Code 2.” It was unclear to those inquirers what those terms referred to, and at least three individuals were unclear as to what their course was coded for and the corresponding definition for such coding.

The Gen. Ed. Assessment Committee continued to periodically meet to refine its process and assess results.

After all the surveys were returned (end of March 2005) the Gen. Ed. Committee continued to meet. The results of the survey were analyzed and added to the Final Gen. Ed. Assessment Document in the Results Section.

The analysis of results and work on the refinement of the document continued through the early fall of 2005.

During fall of 2005 the Gen. Ed. Assessment Committee discussed their recommendations for the improvement of the Webster University General Education Program.

The Final Document of the General Education Assessment was presented to the Curriculum Committee for Approval in November of 2005. The Committee discussed the Document, added some of their recommendations, and Approved the Final Document.

In 2006, the Curriculum Committee and the Coordinator of General Education developed and began to utilize a formal procedure for the approval of new general education courses. The modification of this process and the forms involved is reviewed each Spring by the Curriculum Committee.

In Fall of 2006, a Task Force from the Curriculum Committee was formed to continue to address the recommendations suggested in the 2004-2005 General Education Assessment Document. This Task Force (Kathy Marlock, Don Morse, and Gary Kannenberg) began work on the development of an additional student assessment of General Education at Webster University. One of the meetings in Fall 2006 included the Dean of the School of Communications (via invitation). The Dean and the Coordinator of General Education had a discussion concerning the difficulties in assessing the General Education Program in the School of Communications. The Coordinator of Gen. Ed. encouraged the Dean to move the School of Comm. to utilize the 9 goal program. The Dean continued to decline the suggestion and insisted on maintaining their program and assessing it themselves.

In February, 2007 this committee presented the Curriculum Committee with a General Education Student Survey for their approval. Approval of the Survey and approval for a pilot of the survey for the summer of 2007 was given by the committee on February, 20, 2007.

In March of 2007 the Coordinator of General Education (along with others involved with the General Education Program at Webster University) was summoned to provide Narrative information and Evidence to the Criterion 4 Task Force (Part of the Webster Accreditation Visit by HLC). The Coordinator of Gen. Ed. is also a member of this group.

In March - April 2007 the Coordinator of General Education at Webster University makes suggestions to the Curriculum Committee concerning revisions to the General Education Course Approval Form.

Modifications to the General Education Course Approval Form are submitted to the Curriculum Committee in April/May 2007. These modifications will move the application completely to Learning Outcome format.

April, 2007 the Coordinator of the General Education Program begins to develop and modify the 2009-2010 Webster University General Education Assessment Proposal.

September of 2007 the Coordinator of General Education makes final modifications to the new General Education Approval Form. The Coordinator of Gen. Ed. and Kathy Marlock agree that the Student Assessment Pilot continue in Fall 2007 (the CC agree).

October 2, 2007 the Coordinator of General Education presents the new General Education Approval Form to the Committee. The New Form is Approved by the Committee.

October, 2, 2007 the Coordinator of General Education initiates a discussion of Issues and Topic courses approved for General Ed. Coding before the last digit numbering system was implemented. Might we work toward attaining last digit designation for those courses in order to simplify for students, advising and the registrar?

October 11, 2007 the Coordinator of General Education presents the 2004-2005 Gen. Ed. Assessment rational and process to the International Academic Directors and asks for their suggestions concerning the 2009-2010 Gen. Ed. Assessment.

Spring 2008 the Coordinator of the General Education Program sends drafts of the 2009-2010 Assessment of General Education Proposal and the early development of the 2009-2010 Assessment of General Education Final Report to Dr. James Staley, Associate VP for Academic Affairs and Dr. Kathy Marlock, Director of Assessment at Webster University for their council.

September, 2008 the Coordinator of the General Education Program presents the 2009-2010 Assessment of General Education Proposal to the Curriculum Committee.

January 25, 2010
Department Head
Program Director
Academic Director

The Higher Learning Commission requires a periodic assessment of the Webster University General Education Program to determine whether the outcomes of this program verify “completion of an identifiable and coherent undergraduate level general education component.” In preparation for Webster’s upcoming reaccreditation, the Curriculum Committee has developed the attached survey as one facet of their evaluation of the General Education program.

In this packet you will find a list of the General Education courses identified by the Registrar’s Office as being taught in your department or at your site during the Fall 2009 and Spring 2010 school year. The committee is asking:

- 1) That a survey be completed by the instructor for each section of Gen Ed courses taught. If there are additional Gen Ed courses taught that have not been identified on the list, please duplicate and fill out surveys for those courses. If a particular Gen Ed course listed is not being taught this academic year (or at all), please note that on the attached list and no survey will be required for that course.
- 2) Please have each assessor refer to the General Education Goals Criteria attached to each survey, as well as to the appropriate course section syllabus, when filling out the survey for each course section.
- 3) Each completed survey should be returned accompanied by the syllabus used for that course section.
- 4) We are then asking that each Department Head, Program Director or Academic Director sign off on each survey to insure that it is complete with the syllabus attached.
- 5) Surveys with attached syllabi should be returned to the Office of Academic Affairs at the Webster University home campus in St. Louis. The deadline for return of this information is March 7, 2010.

The survey is straightforward and will provide the initial data necessary to begin assessing the effectiveness of this program. Your full participation is important as it insures a representative sampling and facilitates our ability to draw accurate conclusions in our analysis. Should you have questions about the survey, please feel free to contact

Gary Glasgow, the Curriculum Committee representative, at (314) 968-6934), or email (glasgoga@webster.edu).

Thank you in advance for your assistance.

Sincerely,

Neil J. George
Executive Vice President and
Vice President for academic Affairs

DISCUSS THE FOLLOWING (ATTACH ADDITIONAL PAPER IF NEEDED)
HOW WILL YOU IMPROVE THIS COURSE OR SYLLABUS

ARE YOU SATISFIED WITH THE CURRENT STRUCTURE OF THE PROGRAM AND DO YOU THINK THAT LEARNING OUTCOMES ARE BEING MET?

DEPARTMENT CHAIR VERIFICATION

This General Education Course continues to meet the goals criteria for its Code (s)

Dept. Chair or Academic Director (Signed) _____

GENERAL EDUCATION GOALS CRITERIA

GENERAL EDUCATION GOAL: CRITICAL THINKING

DEFINITION: A systematic method of examining and evaluating arguments.

CRITERIA FOR A CRITICAL THINKING COURSE OR EXPERIENCE:

- Teaches a systematic approach to thinking
- Develops the ability to examine arguments by identifying, analyzing, and evaluating claims and the evidence offered in support of these claims
- Assesses the student substantially on the inquiry process, not content
- Requires active student participation

GENERAL EDUCATION GOAL: COMMUNICATIONS

DEFINITION: Writing and speaking, which are clear, concise and accurate when, conveyed to a broad audience.

CRITERIA FOR A COMMUNICATIONS COURSE OR EXPERIENCE:

- Teaches a systematic approach to written or oral communications in English
- Provides significant opportunities to utilize, practice, and improve these components of literacy

GENERAL EDUCATION GOAL: HISTORICAL CONSCIOUSNESS

DEFINITION: Recognition of causes, relationships and sequences within seemingly random social and historical events.

CRITERIA FOR A HISTORICAL CONSCIOUSNESS COURSE OR EXPERIENCE:

- Imbeds facts within their human contexts
- Examines multiple causality in events
- Establishes a sense of sequence
- Utilizes historical evidence

GENERAL EDUCATION GOAL: HUMANITIES

DEFINITION: Analysis of the themes of human experiences through the legacy of great works and ideas.

CRITERIA FOR A HUMANITIES COURSE OR EXPERIENCE:

- Utilizes original works or texts instead of secondary interpretations
- Provides the student with multiple perspectives on themes of the human condition

GENERAL EDUCATION GOAL: VALUES

DEFINITION: Critical reflection on the attitudes and beliefs relevant to individual and social choices and actions.

CRITERIA FOR A VALUES COURSE OR EXPERIENCE:

- Exposes the student to a wide range of normative standards for ethical choices
- Provides for the student's articulation and critique of the attitudes and beliefs that underlie ethical choices

GENERAL EDUCATION GOAL: CULTURAL UNDERSTANDING

DEFINITION: Examination and comparison of international and/or diverse cultures

CRITERIA FOR A CULTURAL UNDERSTANDING COURSE OR EXPERIENCE

- Promotes global or international perspectives, or offers a comparative study of different cultures within one's own society
- Reflects on one's own culture in light of another culture
- Encourages understanding of both difference and similarity among cultures.

GENERAL EDUCATION GOAL: ARTS APPRECIATION

DEFINITION: Recognition of artistic expressions gained through analysis, reflection

or practical experience.

CRITERIA FOR AN ARTS APPRECIATION COURSE OR EXPERIENCE.

- Teaches the languages and the formal qualities of the varied forms of the arts
- Encourages active observation, participation and response
- Analyzes or involves the student in the creative process

GENERAL EDUCATION GOAL: SCIENTIFIC UNDERSTANDING

DEFINITION: Analysis of concepts of a scientific discipline and its methods, limitations, and impact in the modern world.

CRITERIA FOR A SCIENTIFIC UNDERSTANDING COURSE OR EXPERIENCE:

- Reveals how theories are formed, tested and validated
- Discriminates between conclusions developed from the application of scientific and of nonscientific reasoning
- Differentiates between observation and inferences, and between accidental discovery and the scientific method.

GENERAL EDUCATION GOAL: MATHEMATICS

DEFINITION: Recognition of the value and beauty of mathematics as well as the ability to appraise and use quantitative data.

CRITERIA FOR A MATHEMATICS COURSE OR EXPERIENCE:

- Allows the student to explore, conjecture and reason logically
- Uses a variety of mathematical methods effectively to solve nonroutine problem
- Enables the student to judge the role of mathematical reasoning in real-life situations

Encourages the student to communicate mathematically.

The Reminder letter.

February 17, 2010

Dear Department Head, Program Director or Academic Director,

This letter is just a friendly reminder that the deadline for return of the General Education Assessment surveys (March 7th) is fast approaching. Surveys with attached syllabi should be returned to the Office of Academic Affairs at the Webster University home campus in St. Louis. Your full participation is vital to our ability to draw accurate conclusions in our research.

Please remember that we are asking that each Department Head, Program Director or Academic Director sign off on each survey to insure that it is complete with the syllabus for each course section attached. Should you have questions about the survey, please feel free to contact Gary Glasgow, the Curriculum Committee representative, at (314) 968-6934, or e-mail (glasgoga@webster.edu).

Thank you in advance for your assistance,

Dr. Neil George
Executive Vice President, VP Academic affairs
Webster University
470 E. Lockwood
St. Louis, MO 63119

Section 9

Assessment of the General Education Program (Results)

Survey Assessment : Goals and Statistical Analysis of Results

The survey assessment was intended to accomplish the following specific assessment goals (developed from the original proposal – third assessment area):

- 1) The survey would assess every General Education Course offered during the academic year Fall 2009 and Spring 2010.
- 2) The survey assessment would be given to all professors who taught a General Education Course at any and all Webster University Campuses.
- 3) In the process of completing the survey, the professor is reminded that their course is coded and how the course is coded.
- 4) In the process of completing the survey, the professor is reminded of their responsibility in relating the learning outcomes to their students in both the syllabus and the class.
- 5) In the process of completing the survey, the professor is reminded that the General Education material taught in the course must be assessed in the course.
- 6) The professor is encouraged to consider ways in which the course and the syllabus might be improved in order to better relate General Education material to the student and assess that material.
- 7) The professor is given the opportunity to give their opinion concerning the General Education Program and ways in which the program might be improved.

- 8) The Program Director or Department Chair has the opportunity to review, in detail, the coded General Education Courses offered at their site or within their department.
- 9) The statistical analysis of the results of the survey allow all faculty and administration members to view the state of the General Education Program in relation to individual, site or departmental, and university wide implementation.
- 10) The results also offer the Curriculum Committee the opportunity to consider any recommendations for modification as suggested by the professors who teach the General Education Coded courses.

A total of 1,077 General Education Assessment Surveys were sent out to Chairpersons and Program Directors and distributed to faculty. 902 surveys were returned, yielding a return rate of 83.75 % . The following pages relate the statistical analysis of the results of the General Education Assessment Surveys.

Analytical Summary

A survey was distributed to Webster University instructors of courses coded for general education in spring semester of 2010. This survey asked the instructor to relate how the course met the general education criteria, where the general education criteria were communicated to students in the syllabus, and where the general education criteria were assessed. Additionally, the instructors were asked to identify where the syllabus and the achievement assessment could be improved regarding the general education criteria. This section presents the results of that survey.

Surveys were sent to all instructors, worldwide, who would teach a course-section coded for general education in SY 09-10. 669 surveys were completed and returned. 235 surveys (35.1%) of that total were coded for two general education codes. Here is a breakout of how these surveys were distributed by school within the university.

	Number of Surveys	Number of 2d Code	Percentage of 2d Code
Total University	669	235	35.1%
Arts & Sciences	439	146	33.3%

Business & Technology	97	34	35.1%
Communications	84	30	35.7%
Fine Arts	23	11	47.8%
Interdisciplinary Studies	26	14	53.8%
Extended Campuses	244	154	63.1%

Table 1

Note: The Extended Campus surveys are included within the respective school and also shown separately and do not include the Metro Saint Louis campuses.

Results for the surveys stratified by department are in Table 3.

Most of the school and department survey results followed the general trend of responses in the university-wide compilation. Most respondents (90% range) felt that their course met the general education criteria. The schools choose different general education criteria assessment preferences. The School of Business & Technology preferred examinations and class exercises while the School of Arts & Sciences, the Fine Arts School and the School of Communications prefer to use papers and class discussion for assessment. University-wide, about 30% of respondents saw areas where the syllabus and the achievement assessment could be improved regarding the general education criteria.

Some differences were observed in the distribution of full-time faculty versus adjunct faculty respondents. Table 2 shows the distributions of faculty respondents.

	Full-Time	Adjunct	Unidentified
Total University	24.1%	56.7%	19.2%
Arts & Sciences	21.0%	58.8%	20.2%
Business & Technology	60.8%	28.9%	10.3%
Communications	8.3%	64.3%	27.4%
Fine Arts	0.0%	73.9%	26.1%
Interdisciplinary Studies	11.5%	84.6%	3.9%
Extended Campuses	2.0%	63.1%	34.9%

Table 2

Unfortunately, not every survey identified the assessor's faculty status. The high percentage of full-time faculty respondents in the School of Business & Technology is skewed by the fact that one department (Mathematics & Computer Science) choose to

have one full-time faculty member conduct the assessment of all of the department's courses in the Saint Louis Metro area.

The remainder of this summary section presents the response percentages for the individual survey questions for each of the seven major divisions shown in Table 1. Similar detailed information for the individual departments is less informative since most departments had a low enough number of surveys and therefore compiled to less informative response percentages.

	Number of Surveys	Number of 2d Code	Percentage of 2d Code
Behavioral and Social Sciences	128	56	43.7%
Biological Sciences	2	0	0.0%
English	70	26	37.1%
Foreign Languages and Literatures	129	10	7.7%
History and Politics	31	13	41.9%
Philosophy	48	28	58.3%
Religious Studies	31	13	41.9%
Art & Art History	10	10	100.0%
Music	7	0	0.0%
Theater and Dance	6	1	16.7%
Business	20	11	55.0%
Management	1	0	0.0%
Mathematics and Computer Science	76	23	30.2%
Communications and Journalism	58	18	31.0%
Electronic and Photographic Media	26	12	46.1%
Interdisciplinary Studies	26	14	53.8%

Table 3

Note: the extended campus surveys are included within the department numbers shown.

Dept. Chair or Academic Director (Signed) _____

GENERAL EDUCATION COURSE ASSESSMENT

COURSE PREFIX, NUMBER & SECTION Webster University

COURSE NAME Interdisciplinary Studies

GENERAL EDUCATION CODE 1 26 total surveys (3.9% of University)

GENERAL EDUCATION CODE 2 14 with 2d code (53.8%) (if doubled coded)

INSTRUCTOR/ASSESSOR _____

DATE _____ FULL TIME 11.5% ADJUNCT 84.6%

DIRECTIONS : PLEASE READ CAREFULLY AND CHECK (X) ALL THAT APPLY. USE THE ATTACHED GENERAL EDUCATION CODE CRITERIA AND YOUR COURSE SYLLABUS IN COMPLETING THIS ASSESSMENT.

A. RELATE HOW THIS COURSE (IN YOUR OPINION) MEETS THE GE GOAL CRITERIA FOR ITS CODE(S) . CHECK ALL THAT APPLY

	CODE 1	CODE 2
INSTRUCTOR LECTURE/PRESENTATION	<u>92.3%</u>	<u>92.9%</u>
READING REQUIREMENTS	<u>96.2%</u>	<u>92.9%</u>
WRITTEN REQUIREMENTS	<u>100.0%</u>	<u>92.9%</u>
EXAMS	<u>73.1%</u>	<u>92.9%</u>
COURSE DISCUSSION/ACTIVITY	<u>100.0%</u>	<u>92.9%</u>
REQUIRED OUT OF CLASS ASSIGNMENTS /EXPERIENCES	<u>88.5%</u>	<u>85.7%</u>

B. INDICATE HOW THE SYLLABUS FOR THIS COURSE RELATES TO THE STUDENT THE GEN. ED. COURSE GOALS AND INDICATE HOW STUDENT ACHIEVEMENT OF GEN. ED. GOALS WILL BE ASSESSED (REMEMBER TO INCLUDE A COPY OF THE COURSE SYLLABUS.) . CHECK ALL THAT APPLY.

GEN ED GOALS FOR THE CODE(S) ARE RELATED ON THE SYLLABUS IN:

	CODE 1	CODE 2
COURSE DESCRIPTION	<u>100.0%</u>	<u>92.9%</u>
COURSE OBJECTIVES/OUTCOMES	<u>88.5%</u>	<u>85.7%</u>
PROCESS OF THE COURSE	<u>84.6%</u>	<u>85.7%</u>
OTHER _____		

STUDENT ACHIEVEMENT OF GEN. ED. GOALS ARE ASSESSED WITHIN:

	CODE 1	CODE 2
EXAMS	<u>73.1%</u>	<u>85.7%</u>
PAPERS	<u>92.3%</u>	<u>85.7%</u>
PORTFOLIOS	<u>7.7%</u>	<u>0.0%</u>
CLASS EXERCISES	<u>69.2%</u>	<u>50.0%</u>
OTHER _____		

C. HOW COULD YOU IMPROVE THIS SYLLABUS IN ORDER TO BETTER INSURE THAT THE GENERAL EDUCATION COURSE GOALS ARE CLEARLY STATED ON THE SYLLABUS AND ASSESSED IN THE COURSE? CHECK ALL THAT APPLY.

GEN ED GOALS FOR THE CODE(S) COULD BE RELATED ON THE SYLLABUS IN:

	CODE 1	CODE 2
COURSE DESCRIPTION	<u>11.5%</u>	<u>0.0%</u>
COURSE OBJECTIVES/OUTCOME	<u>19.2%</u>	<u>7.1%</u>
PROCESS OF THE COURSE	<u>7.7%</u>	<u>0.0%</u>
OTHER _____		

STUDENT ACHIEVEMENT OF GEN. ED. GOALS COULD BE ASSESSED BY:

	CODE 1	CODE 2
EXAMS	<u>23.1%</u>	<u>14.3%</u>
PAPERS	<u>15.4%</u>	<u>14.3%</u>
PORTFOLIOS	<u>0.0%</u>	<u>0.0%</u>
CLASS EXERCISES	<u>7.7%</u>	<u>0.0%</u>
OTHER _____		

DISCUSS THE FOLLOWING (ATTACH ADDITIONAL PAPER IF NEEDED)
HOW WILL YOU IMPROVE THIS COURSE OR SYLLABUS

NOTE: Assessment category values above are percentages of the total surveys in this section of the university.

ARE YOU SATISFIED WITH THE CURRENT STRUCTURE OF THE PROGRAM AND DO YOU THINK THAT LEARNING OUTCOMES ARE BEING MET?

Section 10
Recommendations

RECOMMENDATIONS

Recommendations for General Education Survey (2010)

1. Survey directions should stress to respondents the attachment of a syllabus.
2. When administering the survey, clarify the directions pertaining to double-coding.
3. The next iteration of the survey should include the language of learning outcomes.

Next Steps for General Education Assessment

1. Investigate how to measure student learning in Webster's General Education Courses. Invite Kathy Marlock to make a research presentation on how other colleges and universities measure student learning in General Education programs and consider the Student Attitude Survey in the Assessment report.

Next Steps for General Education

1. Move from goals to learning outcomes on all related General Education materials.
2. Discuss the overarching aims of Webster's General Education program.
3. Explore the impact of double-coding.
4. Encourage departments to consider the appropriateness of current coding on their courses.
