

Welcome to the FDC Open House - Be Sure to Visit all Stations

5. Video Conferencing

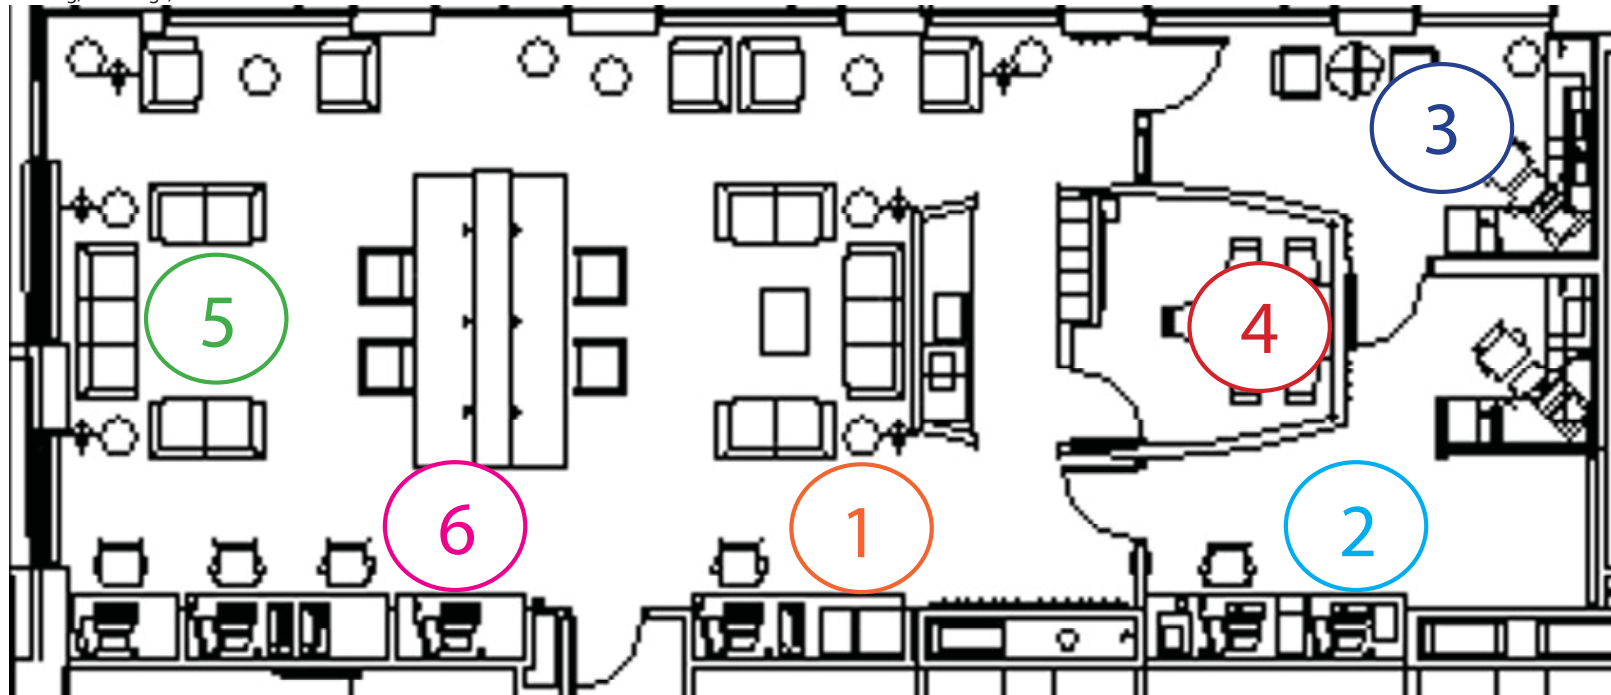

Utilizing the latest in video conferencing hardware and software, the FDC can provide faculty with a venue to communicate and collaborate over digital distance. The International Faculty Lounge, equipped with a 42" large-screen display, video camera, microphone, and software (including Marratech and Skype) enables ad-hoc training, meetings, and collaborations.

4. FDC Equipment

In keeping with the latest technology, the FDC offers faculty the opportunity to reserve and checkout a multitude of high end equipment. Items available for checkout include: a Tablet PC, Digital Camera, overhead projector, laptop and Digital Video Camera.

3. FDC Services

The FDC offers many services to assist faculty in developing course materials that assist in achieving course objectives. Some of these services are done through consultation with instructional and technology specialists, while some are completely full service to be used as basic components of larger instructional revision projects.

6. Media Recording

The Faculty Development Center will gladly record both television and radio programming for use in the classroom so long as recording adheres to Webster's Fair Use Guidelines. These recordings can be provided to instructors on CD or DVD for use in the classroom.

1. Faculty ID card activation

Access to the Faculty Development center is managed by a card swipe system. If you have not had your card activated, stop by this station to do so.

2. Faculty Forum

The Faculty Development Center Online is more than just a web page for the FDC. It is a collection of on-line services available through the Connections Portal for faculty that teach at Webster throughout the world. This includes the new Faculty Forum, a place where faculty and staff can share and discuss teaching experiences, ideas, concerns, and more.
