Online Programs

Webster University offers students unparalleled opportunities to advance their career with a distinctive blend of classroom and online degree programs. Students can pursue their degree entirely online, or mix classroom and online courses according to their preferences, interests and work or family commitments.

Online programs and courses are offered in both asynchronous and synchronous modalities. For asynchronous programs, students can participate any time of the day or night, crafting their schedule of coursework to meet their needs. For synchronous programs, students can still attend from any location, but there will be an expectation that they join a live session via Zoom or other teleconferencing technology on a regular basis (most often weekly). Students can work with their enrollment coach and academic advisor to help choose the program delivery that is the best fit. Online programs and courses are continually being developed to serve the needs of Webster students. A list of current online programs can be found at www.webster.edu/online.
