DESN 1210 Design Concepts (3)

Presents students with the tools to deal with visual materials in a knowledgeable and critical way and to obtain insight into the making and consuming of images. Students will use problem-solving and critical thinking skills to develop artistic solutions based on their understanding of basic concepts and principles of 2-D design, in actual and digital formats. Students will also use experimentation and evaluation to develop awareness of their personal methodology and style within the paradigm of contemporary art concepts. Through critiques and oral presentations, this class will focus on improving oral communication skills using the art terminology that students learn throughout the semester. **GCP Coding: (ARTS) (OCOM)**.

DESN 1220 Design: 3-D (3)

Emphasizes fundamental principles and elements of organization in the visual art as they relate directly to volumetric and spatial forms.
