Success Report Data

Survey Method:

Data for the 2012/2013 Success Report includes individuals who graduated from Webster University in August 2012, October 2012, December 2012, March 2013 and May 2013. Based on information (graduate name, address, phone number, and degree) obtained from the Registrar's Office, each graduate was contacted utilizing the following methods:

- 1) An initial mailing to each graduate (3-6 months after graduation) that contained an introductory letter, copy of the 2012-2013 Graduate Follow-up Survey, and a postage paid return envelope. The letter provided an option for individuals to complete the survey online through the Career Planning & Development Center's website.
- 2) Follow-up e-mails were sent to graduates who had not responded, asking them to complete a survey online.
- 3) Phone calls were made to graduates who had not responded to the survey.
- 4) Additional research conducted by Career Services included the following:
 - Obtained information from Department Chairs, Faculty and Staff (including extended campuses).
 - Obtained information from the University CARS database.
 - Obtained information through online research.

- 3) Annual salaries are as reported regardless of full or part time employment
- 3) Survey respondents were not allowed to self-select "Underemployed" as a current status option. Instead respondents were asked to respond to the questions listed below. Their responses were then compared to their current job satisfaction and their job titles to determine whether they are "Professionally Employed" or "Underemployed."
 - Is this position related to your area of study?
 - Is this position related to your career interests?
 - Does this position require a college degree?
